We have developed a heel made of recycled consumer waste from plastics, water bottles, milk jugs and detergent bottles. If every household recycled just one out of every ten plastic bottles they used, we'd keep 200 million pounds of the plastic out of landfills and the ocean every year.

Suppose that tomorrow a group of beings from another planet were to land on earth, beings who considered themselves as superior to you as you feel yourself to be to other animals. Would they have the right to treat you as you treat the animals you breed, keep and kill for food? - John Harris

Imagine there's no Heaven
It's easy if you try
No hell below us
Above us only sky
Imagine all the people
Living for today
Imagine there's no countries
Nothing to kill or die for
And no religion too
Imagine no possessions
No need for greed or hunger

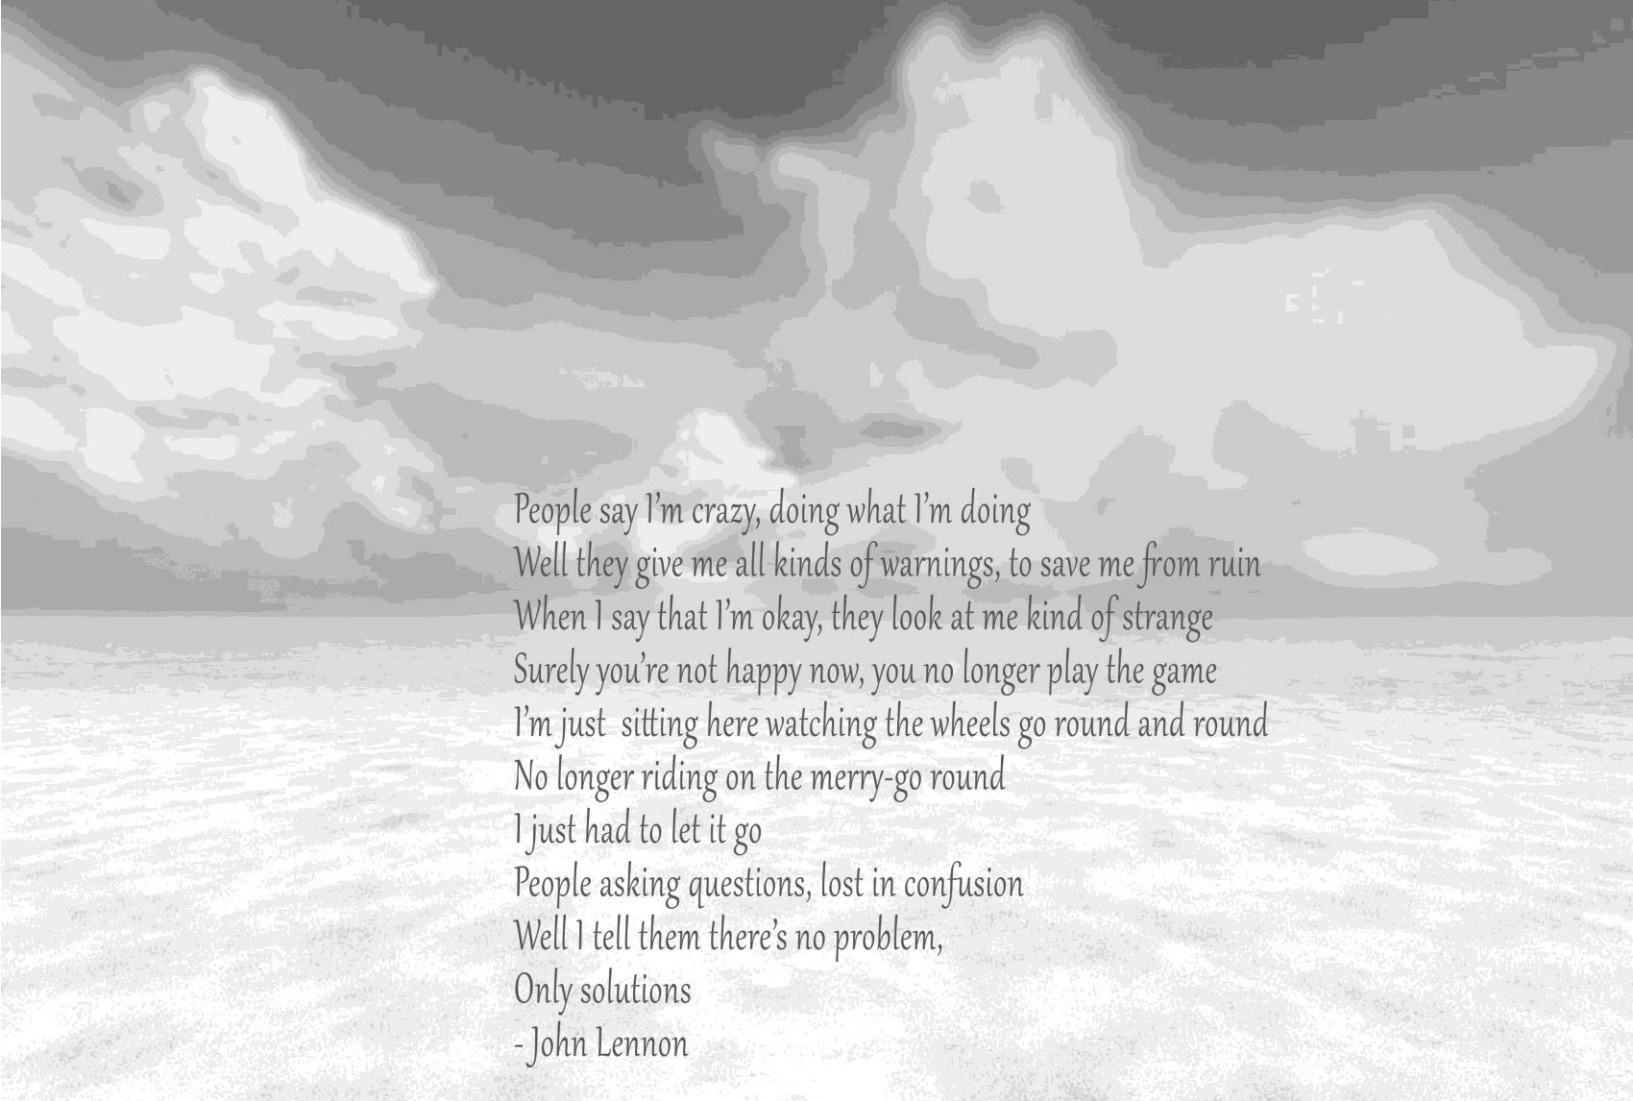

Imagine all the people
Sharing all the world
I hope someday you'll join us
And the world will live as one
-John Lennon

wonder

People say I'm crazy, doing what I'm doing
Well they give me all kinds of warnings, to save me from ruin
When I say that I'm okay, they look at me kind of strange
Surely you're not happy now, you no longer play the game
I'm just sitting here watching the wheels go round and round
No longer riding on the merry-go round
I just had to let it go
People asking questions, lost in confusion
Well I tell them there's no problem,
Only solutions
- John Lennon

The livestock industry is one of the largest contributors to environmental degradation worldwide. Raising animals for food contributes on a massive scale to deforestation, air+water pollution, land degradation, loss of top soil, climate change, the overuse of resources including oil, water, and loss of biodiversity. - UN 2006

The meat+dairy industry has contributed to more deaths than all the wars of this century, all natural disasters, and all automobile accidents combined. - Dr Neal Barnard PHD

Elizabeth Olsen founded olsenhaus to illustrate plundering, cruelty and greed is not synonymous with true style and consciousness, while further exposing the atrocities being committed on animals, the environment, and mankind.
