Ride with a Smile

The Cikada Touring e-Bike offers a new and exciting way to venture beyond the familiar. Equipped with a powerful 350W/80Nm mid-drive motor, it is known for its efficient power distribution. The Touring empowers riders to embrace longer trips with ease while enhancing handling and provides a natural riding feel, making it ideal for diverse terrains. Ascending hills becomes effortless with its five pedal-assist modes that makes any climb feel conquerable. Extending boundaries is a snap with the long-lasting LG 720Wh battery, allowing every journey to be more exciting and attainable than ever before!

LG 21700 720 Wh
Estimated Range 125 km

Low Step-Through
