- The Hyundai DHY22KSE-3 is a three phase diesel generator with a maximum output of 22kVA. Designed for domestic or professional use, the DHY22KSE-3 is powered by a Hyundai diesel engine and is equipped an AVR alternator to produce clean energy. This means that any sensitive electronic equipment, such as televisions, PCs and laptops, can safely be powered by the DHY22KSE-3.
- The DHY22KSE-3 can be started manually by using the key, or connected to an ATS (Automatic Transfer Switch) system. An ATS system will automatically detect a loss of power from the mains, turn your DHY22KSE-3 on automatically, and then turn it off again when power returns from the mains. Housed in a weather-proof “silenced” canopy, the DHY22KSE-3 produces only 75dB @ 7 metres which makes it a quiet standby generator which won’t interrupt you at home or work.
