34kVA Hyundai DHY34KSE

- The Hyundai DHY34KSE-3 is a three phase diesel generator with a maximum output of 34kVA. Designed for domestic or professional use, the DHY34KSE-3 is powered by a Hyundai diesel engine and is equipped an AVR alternator to produce clean energy. This means that any sensitive electronic equipment, such as televisions, PCs and laptops, can safely be powered by the DHY34KSE-3.
- The DHY34KSE-3 can be started manually by using the key, or connected to an ATS (Automatic Transfer Switch) system. An ATS system will automatically detect a loss of power from the mains, turn your DHY34KSE-3 on automatically, and then turn it off again when power returns from the mains. Housed in a weather-proof “silenced” canopy, the DHY34KSE-3 produces only 67dB(A) @ 7 metres which makes it a quiet standby generator which won’t interrupt you at home or work.
