Our rings are made according to US sizing standards. To ensure a perfect fit, we recommend getting your finger(s) measured. However, if you prefer to measure yourself, follow these easy steps:

1. Wrap a string around your finger or place it across the diameter of an existing ring for reference.
2. Ensure the string is tight to obtain accurate measurements.
3. Mark where the ends of the string meet and measure the length in millimetres (for circumference) or diameter (for inner diameter).
4. Use the chart below to determine your size based on the measured circumference or inner diameter.
