

Wooden Toy Paint

Child Safe | Non-toxic | Low-odour
EN71-3 Certified

Colour Card

Bring your projects to life with our paint range designed exclusively for toy makers

Vibrancy & Cruelty Free

It's too good to be true. There's finally a paint with the same rich, vibrant colour that you've wished you could get from other paints but cruelty free and safe for children.

Low Odour & Non-Toxic

Our paint range has very little scent to it, it's non-toxic, water-based and is perfectly designed for toy making. It meets the most stringent international safety standards - EN 71-3:2019+A1:2021.

Ecofriendly

We have developed a range of eco-friendly and very low-VOC paint. It is the highest quality, market-leading paint and we are proud to say that our environmental impact is extremely low and our products are ethically sourced.

Colour Range

Explore our extensive paint colour range with over 100 rich colours available in a multitude of sizes. From vibrant reds and tranquil blues to warm neutral tones and sophisticated greys, we have a shade that will complement your style.

Durability

A market leading matt finish sealant with our diamond hard durable finish is suitable for exterior use. Its non-yellowing formula provides a crystal clear barrier that won't alter your paint colours. We also have satin and pearlescent finishes for that extra shine.
