

OTHERLAND CLUB

Why Otherland?

We happen to believe the magic lies in exploring the unknown.

Our brand is all about venturing to distant lands and unearthing treasures that speak to us.

We then weave these elements into an exclusive line of men's shirts that are truly one of a kind.

who we are

Otherland is the ultimate playground for men who like to make a statement.

We're a menswear brand, made by women - because who has more vested interest than us in making men look great?!

We want to bring colour back into menswear.

Our brand is built around these ideas:

Vibrant colours.
One of a kind prints.
Natural fabrics.
Handmade by artisans.
Limited editions.
Sustainable practices

Preserving heritage techniques is something that is super important to us.

We firmly believe in finding collectives of artisans, each masters of their craft, and working with them to produce our range.

Each purchase you make, therefore goes into preserving and safeguarding these artists from the relentless toll of modern manufacturing.

We are working on closing the loop and promoting sustainable practices.
