## PFAS/PFC Statement

At Do-Gree Fashions Ltd, we share a deep appreciation for nature and a responsibility to protect it. We understand the environmental and health concerns surrounding per- and polyfluoroalkyl substances (PFAS) and perfluorinated compounds (PFCs), which is why we are dedicated to minimizing their use in our outdoor gear.

We are proud to declare that our products are carefully crafted with materials that are free from PFAS and PFCs. We prioritize the health and safety of our customers and the environment, and we continually seek out sustainable alternatives to traditional manufacturing processes.

In addition to selecting PFAS and PFC-free materials, we maintain strict standards for our supply chain to ensure compliance with the most up-to-date regulations and industry best practices. Our commitment to transparency means that we are always open to sharing information about our materials and manufacturing processes with our customers.

Together, with our customers and partners, we can enjoy the great outdoors responsibly while minimizing our impact on the environment.
