## Restricted Substances List

Through the effective management of restrictive substances and chemicals, Do-Gree Fashions Ltd seeks to increase product quality and ensure product safety. Compliance with increasing global legislation and minimizing the use of restricted substances is essential to reduce the impact and associated risks of such chemistries.

All fabrics, trim and any other materials sourced and utilized on behalf of Do-Gree Fashions Ltd. must comply with the latest AFIRM “Restricted Substances List” (RSL), which is updated annually on the 1st of February.

The AFIRM “Restricted Substances List” (RSL) is available in six languages with supporting documentation at the following location: <https://afirm-group.com/afirm-rsl/>

## EU REACH REGULATIONS

REACH stands for Registration, Evaluation, Authorization and Restriction of Chemicals.

Adopted to improve the protection of human health and the environment from the risks that can be posed by chemicals. It effectively manages substances of Very High Concern entering the European market.

Based on scientific evidence indicating potential hazards to human health or the environment, the European Commission (EC) and European Union (EU) member states propose substances of very high concern (SVHCs) for placement on the European Chemicals Agency (ECHA) “Candidate List of Substances of Very High Concern for Authorization.”
