 1/4"  1/8" (Piping)  Red  Royal Blue  Other \_\_\_\_\_

## PIPING COLOR

- Gold  Red  Navy  Royal Blue  Sky Blue  Other \_\_\_\_\_

## How To Measure

For best results, DO NOT take your own measurements. Stand up straight but relaxed, wearing best fitting undergarments, or if preferred, clothing that follows the body's contour. Have someone hold tape so that it is straight, snug, and less smooth but doesn't indent the body. Do not add to body measurements or place finger(s) between body and shape.

- 1. Chest/Bust:** with arms down and relaxed, measure around the fullest part of the chest. Keep tape up under the arms, across the shoulder blades.
- 2a/2b. Waist/Belly:** measure around waist, where you normally wear your pants, and belly above that. Measure over shirt, but not over slacks or belt.
- 3. Hip:** measure at the fullest part of the hips. Make sure tape is comfortable and not too tight (7-9" below natural waist).
- 4. Thigh:** measure around thigh at approximately 1" below crotch.
- 5. Shoulder Pt to Pt:** measure across the shoulder bone to bone.
- 6. Neck:** measure around the base of the neck.
- 7. Sleeve Length:** measure from nape of neck over the shoulder to the wrist bone, to desired length.
- 8. Coat Length:** measure from the nape of the neck to below the seat area (approximately 1" below buttocks).

- 9. Over the Arms:** arms down, measure around chest at fullest part.
- 10. Collar to Waist:** measure from nape of the neck to waist.
- 11. Inseam:** measure from crotch along inside leg to desired length. Take this measurement with shoes on. If you have a similar pair of well-fitting pants, lay flat, smoothing out front and back creases. Measure along inside seam, from crotch to bottom of hem.
- 12. Outseam:** measure from bottom of waistband along outside seam line to desired length. Take this measurement with shoes on.
- 13A. Male Rise:** difference between the outseam and the inseam.
- 13B. Female Rise:** should be taken with person sitting on chair and measured from bottom of waistband to seat on chair. This determines the rise.
- 14. Cap Measurement:** measure 3/4" above ear where your hat will be worn. Pull the tape tight to measure within 1/8".
