

LOK Series Surveillance Kits—Braided Cable

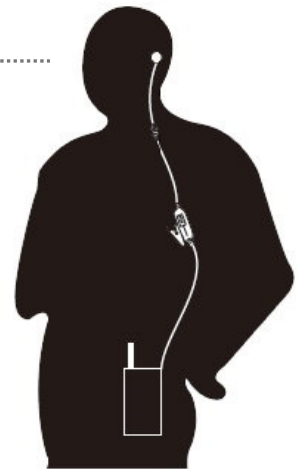

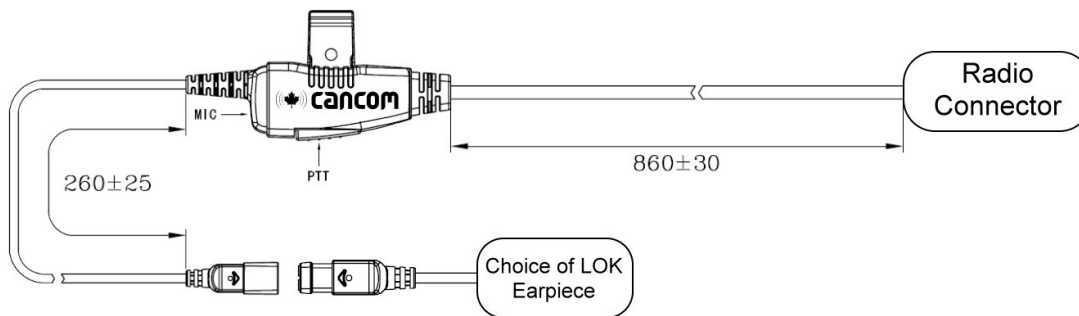

CanCom Radio Accessories offers the ultimate in versatility and reliability with its new “LOK Series” line of surveillance kits.

Available in both single-wire and 1.5 wire set-ups the series uses braided nylon cabling that is Kevlar reinforced. The special LOK system offers a series of quick disconnect earpieces. This allows user the ability to quickly change earpieces as required.

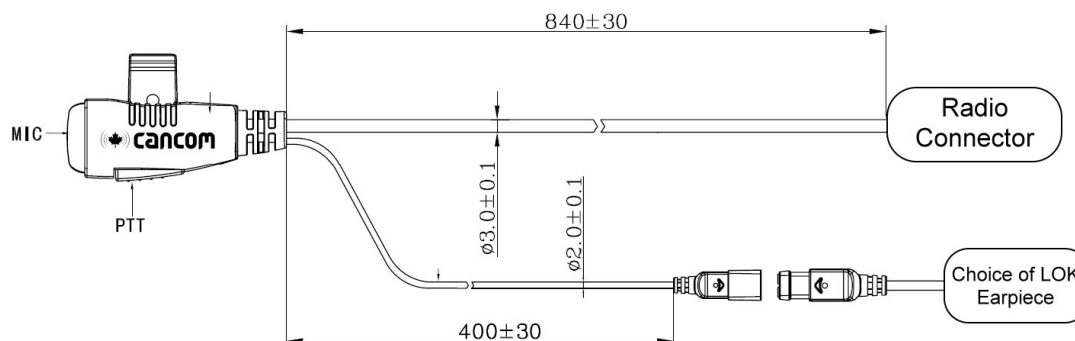

Braided Nylon Kevlar Reinforced Cabling

X1LOKB—Single Wire Kit

X15LOKB—1.5 Wire Kit

3 x Stronger Than Traditional Resin Line

- ▶ Improves cable durability with less cracking and tearing
- ▶ Braided nylon design minimizes tangling and prevents kinking
- ▶ Protects wiring from force and friction
- ▶ Kevlar reinforced for ultimate strength and durability
- ▶ Does not get tangled
