

LIGHTWEIGHT HEADSET - OVER-THE-HEAD MODEL

ONE-SIDED OTH WITH RUGGED IN-LINE PUSH-TO-TALK

LINE DIAGRAM—DIMENSIONS

Model: XHSLOH-XX

Product Description

High Quality Lightweight Headset with Rugged In-line Push-to-Talk (PTT) button. Flex Boom microphone allows for precise positioning and has noise cancelling properties to deliver crisp audio. Headset has added padding and is fully adjustable for all head sizes.

Product Features

- Adjustable padded headset allows for ideal fit and maximum comfort for long hours of use.
- Microphone tube can be easily positioned.
- Comfortable for long wear times, when actively moving around or with a variety of helmets.
- High quality speaker allows for crisp receive audio.
- Noise canceling boom microphone.
- Large rubber PTT button for easy access.
- 360 degree revolving back clip can turn by different segments to secure to the user's lapel or collar.
- 2.5mm external jack for optional Finger PTT.
- Rubber sealed housing for heavy duty use in wet environments, and making holding more comfortable.
- Reinforced strain relief at speaker, PTT and radio connector gives unit maximum durability.
- IP55 rated for water tightness.
- Available for all models of two-way radio.
