

## VERSATILE-FUNCTIONAL-TOUGH SOLDIER SPEAKER MICROPHONE

IP68 RATED WATERPROOF &  
DSP NOISE CANCELLATION

**Model:** XSM600

### Product Description

The “Soldier” XSM600 is our most versatile speaker microphone. IP68 rated, this heavy duty speaker mic offers the highest waterproof rating and is designed for professional users in extreme environments such as public safety, law enforcement and the military.

Microphone is Omni-directional and noise cancelling using DSP audio technology. Dual audio ports for additional accessories—Adding a two-way headset to the nexus jack turns the mic into a PTT. No other speaker microphone can match the functionality the XSM600 offers.

### Product Features

- Dual PTT design. Side & front tactical PTT are both “groove” protected to prevent accidental activation
- Top mounted Nexus Jack allows you to adapt your choice of two-way accessory such as a headset
- 3.5mm jack at bottom for the listen only earphone
- Volume control buttons (volume up/down)
- Noise cancelling button on the side to activate the Digital Signal Processing (DSP) function
- Reflective board can be placed at top and bottom for better visibility
- All units feature heavy grade industrial jacketed cables and excellent strain relief for maximum life in the field.
- High-quality condenser-style microphone element and powerful speaker produces excellent transmitted audio clarity
