

PELTOR™
Protection & Communication

Rise above the noise
with clear protective
communication.

With the hands-free, voice-activated communication, noise-cancelling microphones and extended operating times of 3M™ PELTOR™ LiteCom Headsets, you're already ahead of the game when it comes to team communications.

The LiteCom lineup features different models with different features so you can find just the right headsets for your specific work environment. Now you can help protect your team, improve communication and promote productivity.

3M™ PELTOR™ LiteCom Headsets

Three smart ways to help protect and communicate.

3M™ PELTOR™ WS™ LiteCom Pro III Headset

3M™ PELTOR™ WS™ LiteCom Plus Headset

3M™ PELTOR™ LiteCom FRS Headset

Protection that adapts to your surroundings.

The environmental listening technology helps workers to hear environmental sounds in low noise and helps provide protection when it's loud. This integrated feature comes standard on LiteCom Pro III and LiteCom Plus headsets, giving you smart hearing protection that automatically adjusts—up to the labeled attenuation value—based on surrounding noise levels to help provide protection when it's needed.

3M™ PELTOR™ WS™ LiteCom Pro III IS Headset – Intrinsically safe.

When it has to be intrinsically safe.

Get all the features of the LiteCom Pro III with a headset certified by CSA Group as intrinsically safe for use in potentially explosive environments.

waterproof microphone (IP68)

Voice-operated transmission
(VOX) for hands-free operation

Find the right fit for your application.

1 3M™ PELTOR™ WS™ LiteCom Pro III Headset

Fully programmable to seamlessly integrate into your existing analog or DMR two-way radio system (403-470 MHz). Includes many features including environmental listening technology that automatically adjusts to your surroundings

2 3M™ PELTOR™ WS™ LiteCom Plus Headset

Step into the LiteCom Plus for environmental listening technology that automatically adjusts to your surroundings.

3 3M™ PELTOR™ LiteCom FRS Headset

Take small group communication to the next level with the reliable LiteCom FRS. It turns noisy environments like plant tours into clear conversation spaces.

**U.S. EPA specifies the NRR as the measure of hearing protector noise reduction. However, 3M makes no warranties as to the suitability of the NRR for this purpose. 3M strongly recommends personal fit testing of hearing protectors. Research suggests that users may receive less noise reduction than indicated by the attenuation label value(s) on the packaging due to variation in fit, fitting skill and motivation of the user. Refer to applicable regulations or guidance on how to adjust attenuation label values. It is recommended that the NRR be reduced by 50% to better estimate typical protection.*

Pick your team's protection.

The LiteCom Protective Communication headsets from 3M are made with your employees in mind. That's why we have a variety of headsets and devices so that you can find the best solution for your workers. The LiteCom Protective Communication headsets are available with headband, neckband and hard hat attachments.
