

## Global Reach and Impact

**3 million** syringes

distributed annually to Europe, the UK, Russia, the Azerbaijani Republic, Uzbekistan, Iraq, and beyond under strict international certification standards (ISO, GMP, CE, KFDA, TGA 2024)

## Long-Lasting Results

**10-15 months**

with QTFill Plus Fine, QTFill Plus Deep, and QTFill SubQ.

## Advanced Technology

**Ultra High Density technology**

enhances the filler's viscoelasticity and minimizes impurities ensuring superior performance.

## Exceptional Patient Satisfaction

QTFill Plus delivers outstanding results, with **over 95%** of patients reporting satisfaction through clinical study and survey.

## Clinically Proven Excellence

Evidence-based studies confirm that HA remains

effective for up to **15 months,**

as demonstrated by QTFill Plus histological analysis.
