Vertical & Horizontal Channel Locks		Available when equipped w/Quilt Magician	
Operator's Manual and Instructional DVD			Standard
Professional Delivery, Set-up & Training		Available through Factory-trained Dealer Network	

Lizzie Stitch

Apprentice by TinLizzie18 features soft-touch button controls on each handle with an LCD display. When you select the famous Lizzie Stitch mode on the LCD screen, your machine coordinates with your movements; as you move the machine it sews, when you stop it stops with you. With stitch regulation so precise, and stitching as small as 23 stitches per inch, the Lizzie Stitch allows for even the finest micro-stippling.

Auto Needle Positioner

Apprentice by TinLizzie18 has the ability to stop in the needle up or needle down position, minimizing bent or broken needles and allowing free movement of the machine.

Built-in Bobbin Winder w/ Large Bobbin

Apprentice by TinLizzie18 offers a built-in bobbin winder that winds while you quilt, so your next bobbin is always full and ready. It also features the largest available bobbin capacity, the M-size bobbin.

Comfort Grip Handlebars

The curved handlebars allow for easy movement of the machine and help to ease tension and tired muscles, making quilting easier.

LED Lighting with UV

Apprentice by TinLizzie18 provides a more defined lighted area compared with fluorescent lighting. The added UV lighting feature gives you the ability to use special threads, such as black on black and mono-filament to better see the detail of your stitches.

Oil Reservoir

Apprentice by TinLizzie18 requires little maintenance. The oil is self-contained so you no longer have to worry about oil on your quilts or oiling the hook with every bobbin change.
