

Our not-so-basic, basic model

The ALL NEW **TinzLizzie18 ESP** is our entry level long arm that's anything but ordinary! This state-of-the-art machine offers quilters everything they need in an affordable quilting machine. When every stitch counts toward a memory, demand all of the power and none of the limitations. ESP's new Servo motor with auto-stitch and breathtakingly beautiful 2200 stitches per minute make affordable quilting excellence a reality.

Proud to be a **LEADING** manufacturer of long arm quilters in the U.S.

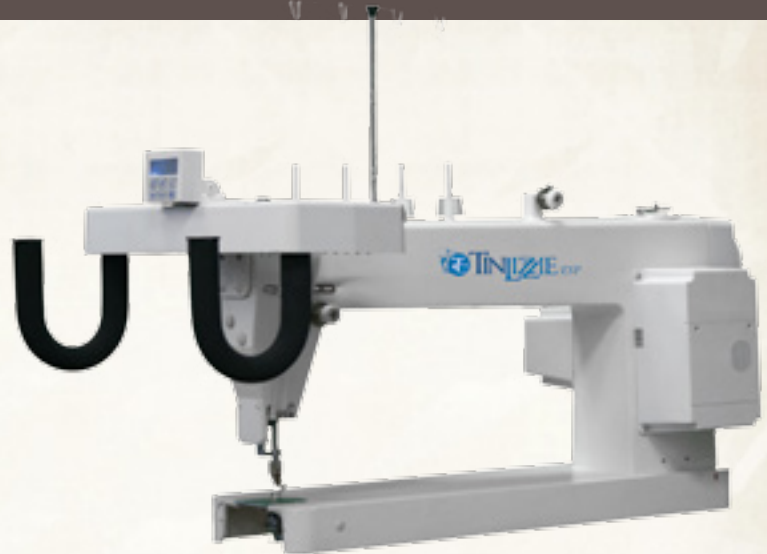

Quilting affordability...

For every quilter who dreams of owning a long arm that's not only affordable, but gives the performance of a much higher-priced machine, the new **TinLizzie18 ESP** is here! Amazing, precise stitches with tons of features make her a machine you'll love to own for years to come.

Vertical & Horizontal Channel Locks		Available when equipped w/Quilt Magician	
Operator's Manual and Instructional DVD			Standard
Professional Delivery, Set-up & Training		Available through Factory-trained Dealer Network	

Auto Stitch

Your **TinLizzie18 ESP** features an LCD display. When you select any of the stitch modes, including auto stitch, your machine coordinates with your movements; as you move the machine it sews, when you stop it stops with you. With stitch regulation so precise, allowing for even the finest micro-stippling, the new ESP makes quilting elegant, sophisticated and precise.

Auto Needle Positioner

Your **TinLizzie18 ESP** has the ability to stop in the needle up or needle down position with exact precision, minimizing bent or broken needles and allowing free movement of the machine.

Built-In Bobbin Winder w/ Large Bobbin

Your **TinLizzie18 ESP** offers a built-in bobbin winder that winds while you quilt, so your next bobbin is always full and ready. It also features the largest available bobbin capacity, the M-size bobbin.

Comfort Grip Handlebars

The curve style handlebars allow for easy movement of the machine and help to ease tension and tired muscles, making quilting easier.

Integration of Quilt Magician and ESP Stitch Regulator

A seamless integration where technology meets computerized quilting: Simply attach the hardware, plug it in, and you have a fully-automated system. Simplicity at its best.

Oil Reservoir

Your **TinLizzie18 ESP** requires little maintenance. The oil is self-contained so you no longer have to worry about oil on your quilts or oiling the hook with every bobbin change.
