

## OUR SOLAR SYSTEM ORBITS AROUND THE CENTER OF THE MILKY WAY GALAXY

Did you know that our entire Solar System with the Sun in the middle revolves around the center of the Milky Way Galaxy, just like the Earth rotates around the Sun? **The length of one orbit ranges from 225 to 250 million terrestrial years..**

Did you know that **SPLAT JUNIOR 6-11 space toothpastes** contain **cranberry extract** that is a **natural antioxidant**?
