FEATURES

1. Rotatable boom arm provide flexible angle adjustment and shift.
2. Foldable scissor arm design is convenient to handy storage.
3. Sturdy and compact construction firmly holds microphone and can take the weight.
4. Secure suspension boom arm protects microphone from shaking, dropping and making noise.
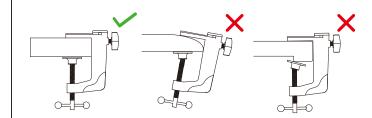

INSTALLATION OF THE STAND

1. Screw the turning handle on the desk clamp, and mount it to the edge of the desk securely.
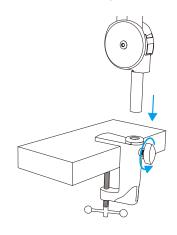

Tips: Make sure that both the top and the underside of the desk clamp are resting on flat surfaces. Overly rounded or overhanging desktop edges do not make good mounting surfaces.
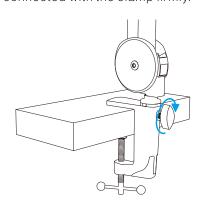

2

2. Loosen the screw on the desk clamp for space enough in the hole of the desk clamp to insert the boom arm.

Tips: When you want to adjust the angle of boom arm, please loosen the knob at the joint first. Adjusting the arm when the knob is tight may damage the parts.

3

3. Tighten the screw on the desk clamp, until the boom arm is connected with the clamp firmly.

Tips: If you want to rotate the boom arm, please loosen the screw on the clamp firstly. Rotate the arm when the screw is tight may damage the screw or the whole clamp.
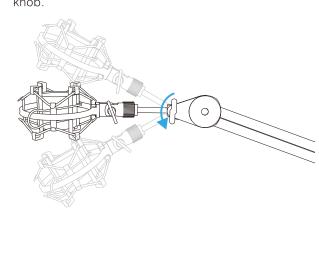

4

APPLICATION OF THE STAND

Connected to mic shock mount or mic holder (NOT included)

1. Please connect the ordinary shock mount or mic holder to the boom arm directly.

2. Loosen the knob to adjust the suitable angle and height of your shock mount or mic holder, and then tighten the knob.
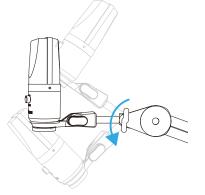

5

Connected to microphone (Not included).

1. Please connect your microphone to the boom arm directly.

2. Loosen the knob to adjust the suitable angle and height of your microphone, and then tighten the knob.

TIPS:

- The desk clamp supports a maximum desktop thickness of 2 inch (5cm).
- Velcro cable ties are used for bundling the mic cable to the boom arm.
