Senior UI/UX Designer JD

Our Team

Mighty Jaxx is a unique future culture company that creates quality products across multiple categories such as art collectibles and lifestyle items, bridging the physical & digital world by powering it with technology. Since our inception in 2012, we have produced over 1,000 designs in collaboration with world-renowned artists and global entertainment brands like Hasbro, Sesame Workshop, Toei Animation and Warner Bros, delivering 5 million units of tech enabled collectibles to collectors in over 60 countries in 2020 alone.

We are proud to be an equal opportunity employer with a diverse, inclusive work environment and encourage our employees to bring their true fun-loving and high-energy selves to the workplace. With big, vibrant dreams and a culture of high performance in our workplace, you will always be engaged, empowered and feel positively challenged.

At Mighty Jaxx, we always extend our full support to the team to help them reach their full potential personally and professionally. If you love keeping up with the latest trends across different sub-cultures, love technology and are ready to embrace your creativity, we love to have you join us in creating the most unique experiences, products and content for our collectors!

The Job

User Experience is a big part of the Mighty Jaxx brand. In our business of making joyous products, we want to ensure that every part of the customer's interaction with us is well thought out and done well. As a Senior UI/UX Designer, you are part of a team of designers, researchers, product managers, and engineers; that are passionate about human insights and behaviors and are constantly designing and iterating effective, delightful and intelligent user experiences to grow our audience base.

Responsibilities

- Research, design and iterate effective digital interfaces and user flows across Mighty Jaxx various properties and products.
- Collaborate cross functionally to identify problems and opportunities in user experience, and create elegant solutions to address those points.
- Collaborate cross functionally in establishing design benchmarks, processes, and best practices internally.
- Be aware of products and business goals, and proactively aligning the design output with these goals.

- Be aware of the wider UI/UX design trends & best practices globally and look to incorporate them into solutions developed.

<u>Requirements</u>

- At least a Diploma in design or other related field
- 3-4 years in UX for web and mobile design (e-commerce knowledge is definitely a plus)
- Candidates with 1-3 years of experience are welcome to apply for a junior position
- Fluent in responsive design, native mobile/tablet UI UX design
- Strong portfolio with a range of interaction design work / design portfolio
- Familiarity with design techniques (user personas, storyboarding, user research and wireframes).
- Experience with Sketch, Adobe Photoshop, XD or other design tools
- Ability to prototype and demonstrate design concepts using Invision, Adobe XD, Principle or Framer tools
- Out-of-the-box and motivated thinker with an eye for both creative and strategy
