

BOOK NOOK KIT NEBULA RESTROOM

350 PCS

6-8 HRS

14+

Avertissement de Sécurité

- Pour votre sécurité, veuillez lire ce manuel avant de commencer.
- Ce produit est adapté aux personnes de plus de 14 ans, les enfants doivent être sous la surveillance de leurs parents.
- Toute modification ou altération non autorisée de ce produit endommagera vos droits et intérêts liés à ce produit.

Attentions

- Retirez soigneusement les accessoires de la planche pour éviter que les pièces ne se cassent. Les points de rupture peuvent être lissés avec une lime.
- Ne détachez pas toutes les pièces en même temps.
- De la colle est nécessaire à certains endroits. Après avoir collé, laissez le produit intact pendant deux heures pour assurer une adhésion solide.
- Pour gagner du temps, vous pouvez d'abord faire l'étape de collage, puis assembler le reste.
- Si la pièce à emboîter est trop serrée, vous pouvez la limer un peu avant de l'assembler; si l'installation est trop lâche, vous pouvez utiliser de la colle pour ajuster lors de l'assemblage.
- Les enfants doivent être accompagnés par un adulte lors de l'assemblage.
- Veuillez conserver ce manuel pour référence future.

Maintenance

Ne placez pas le produit près de la chaleur ou de l'eau.
Utilisez un chiffon doux pour nettoyer le produit.
Ne pas utiliser de produits chimiques pour nettoyer le produit, comme des nettoyeurs pour vitres, des solvants, de l'alcool, de l'ammoniaque, ou des abrasifs.

Safety Warning

- For your safety, please read this manual before starting.
- This product is suitable for people over the age of 14, children should be under the supervision of their parents.
- Any unauthorized modification or alteration of this product will damage your rights and interests related to this product.

Cautions

- Carefully remove the accessories from the board to prevent the parts from breaking. The breaking points can be smoothed out with a file.
- Do not detach all the parts at the same time.
- Glue is needed in some places. After gluing, leave the product intact for two hours to ensure a strong bond.
- To save time, you can first do the gluing step, then assemble the rest.
- If the part to be fitted is too tight, you can file it a little before assembling; if the installation is too loose, you can use glue to adjust during assembly.
- Children must be accompanied by an adult during assembly.
- Please keep this manual for future reference.

Maintenance

Do not place the product near heat or water.
Use a soft cloth to clean the product.
Do not use chemical products to clean the product, such as glass cleaners, solvents, alcohol, ammonia, or abrasives.

Attention

Handle Accessories Carefully
Manipuler avec précaution

STEP 1

Avant de commencer, vérifiez le fonctionnement des LEDs
Before assembling, please check the LED lights can work properly.

Comme illustré sur l'image, avant de commencer à assembler, veuillez utiliser les piles pour tester si le module d'alimentation de la lumière fonctionne correctement.

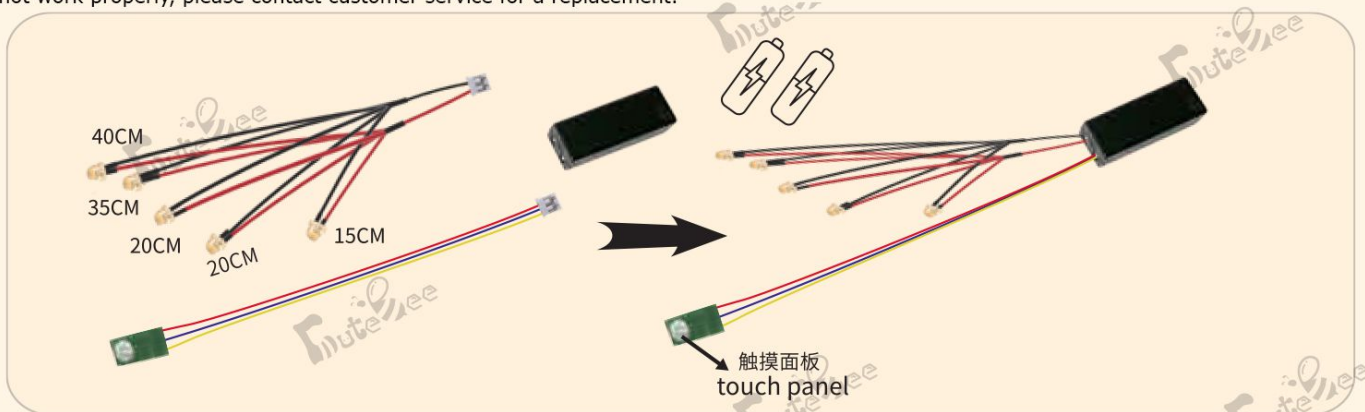

La méthode de test est la suivante :

1. Connectez le port de câble de la lumière LED et le port de câble du panneau capteur tactile au port correspondant du compartiment à piles;
2. Insérez deux piles AAA;
3. Touchez le panneau capteur tactile. Si la lumière fonctionne, cela signifie qu'il n'y a pas de problème avec l'unité d'alimentation de la lumière; si la lumière ne fonctionne pas correctement, veuillez contacter le service client pour un remplacement.

As shown in the image, before starting to assemble, please use the batteries to test whether the light's power supply unit can work properly. The testing method is as follows:

Connect the wire port of the LED light and the wire port of the touch sensor panel to the corresponding port of the battery compartment; Insert two AAA batteries;

Touch the touch sensor panel. If the light works, it means there is no problem with the light's power supply unit; if the light does not work properly, please contact customer service for a replacement.
