

# K17-PC Hinged Dynamic Patella Stabilizer with "J" Buttress

PDAC Approved L1820

## APPLICATIONS:

The K17 is a highly effective brace that provides support and compression for patients suffering from patella/femoral disorders, medial and lateral instability of the knee, and patellar malalignment correction.

This 1/8" neoprene Hinged Patella Stabilizer with a "J" buttress is capable of providing knee stabilization even during high-demand activities. It is available in both left and right configurations for optimal fit.

## FEATURES:

- Polycentric aluminum hinges enclosed in neoprene pocket
- Special cordura stress covers over center, proximal and distal hinges
- 1/4" enclosed tubular "J" buttress
- Patella opening for positioning and comfort
- Patella pull panel with adjustable straps

## INDICATIONS:

- Patella Femoral Disorders, Subluxation and post-Patella dislocation
- Mild medial and lateral collateral ligament instability
- Mild anterior and posterior cruciate instability

### Washing Instructions:

Hand wash in cold water with mild detergent. NO chlorine bleach. Air dry. Do NOT put in dryer.

## SIZING

Measure knee circumference with leg extended.
