

K197 SharkTrak™

Hinged Wrap Around Patella Stabilizer

PDAC Approved L1820

The K197 knee brace is a low profile hinged wrap around patella stabilizer that features a universal dual dynamic pull buttress with a "sharkskin" texture for customizable pressure on the patella. This unique wrap around design also includes two posterior closures with anchor tabs and a patella opening for optimal positioning and comfort, making it an excellent choice for patients with patellofemoral disorders.

FEATURES:

- 1/8" UBL 1-side, nylon 1-side neoprene
- Patella opening for positioning and comfort
- · Wrap around style for easy application
- Universal left or right knee with pull tab sharkskin buttress for desired pressure on the patella
- Sharkskin anti-migration strips line the hinge pockets and prevent migration
- · Bi-lateral Hinges for joint support
- · Low profile 11" in length, 7oz weight
- · Open popliteal

INDICATIONS:

- · Chronic patella maltracking
- Patellar dislocation/subluxation
- · Chondromalacia
- · Post lateral release
- · Patellofemoral pain
- · Knee support

Washing Instructions:

Hand wash in cold water with mild detergent. NO chlorine bleach. Air dry. Do NOT put in dryer.
