Wall Padding

A variety of padding choices that are ideal for gymnasiums, wrestling rooms, recreation facilities, and fitness centers.

Kwik-Stik Wall Padding

FEATURES:

- Well-suited for wrestling rooms, gymnasiums and other permanent installations.
- Available in 26 color choices to match Resilite's wrestling mat colors.
- Easily customized with logos and lettering.
- Can be installed around corners and obstructions to provide continuous protection.
- Meets or exceeds ASTM F2440-04 *Indoor Wall Padding Standard*.
- **ResiGuard** - Meets Class-A rated fire-retardent wall padding standard.

Wainscot Wall Panels

FEATURES:

- Ideal for gymnasiums and recreation facilities.
- Three (3) foam thicknesses to choose from.
- Available in 12 vinyl fabric color choices.
- Easily customized with logos and lettering.
- Easy installation -- Conventional or Slot-Back
- Meets or exceeds ASTM F2440-04 *Indoor Wall Padding Standard*.
- **Safeguard Plus** - Meets Class-A rated fire-retardent wall padding standard.

Dual-Purpose Floor / Wall Mats

FEATURES:

- Ideal for fitness centers, day care facilities, gym clubs and elementary schools.
- Several foam thicknesses to choose from.
- Available in 9 vinyl fabric color choices.
- Velcro® mat hanger strips for easy installation.
- Two mats in one - for use as a tumbling mat and/or wall padding.
- Saves space and storage.

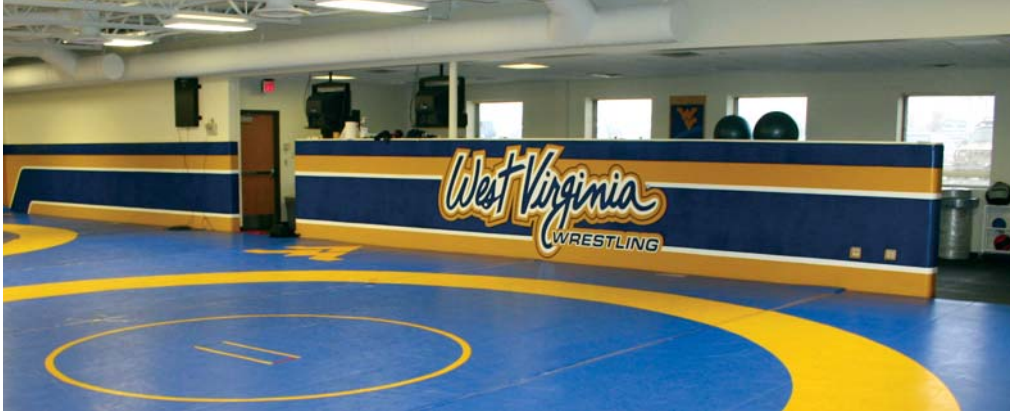

Velcro Mat Hanger

NOTE: Always follow recommended installation procedures when installing wall padding. Wall Padding should always be installed no more than 4" from the floor surface.

WALL PADDING

Kwik-Stik Wall Padding

- RSP-600KS - 1" thick AMC2 foam coated with Resilite's exclusive polyvinyl formula.
- Available in 5-ft or 6-ft height.
- Permanent installation of wall padding.

- Available in ResiGuard™ - using Resilite's exclusive WMA foam to meet stringent ASTM E 84-05 *Standard Test Method for Surface Burning Characteristics of Building Materials* for Class-A fire-rated wall padding.

Pad behind basketball standards or multi-purpose rooms.

- Available with built-in **Microban® antimicrobial product protection*** to help prevent the growth of stain and odor causing bacteria, mold and mildew. *Microban technology is available for an additional cost.
- **NEW adhesive** facilitates installation and minimizes use of contact cement and odor.
- Artwork, Lettering and Logos can easily be added.

Add customized artwork to make your room unique.

Ideal for use in Wrestling Rooms.

Can be installed on doors and around obstacles.

Wainscot Wall Panels

Selecting the panel that is right for you is simple...

Four Protective Foam Cores

GUARDIAN: 2"

- 1-3/8" thick crosslink polyethylene foam core, laminated to 7/16" OSB.

Light-duty to medium protection

GUARDIAN XL: 2-1/2"

- 2" thick crosslink polyethylene foam core, laminated to 7/16" OSB.

Offers maximum protection

DUOGUARD: 2-5/8"

- 1-3/8" thick crosslink polyethylene plus an additional 5/8" polyurethane foam core, laminated to 7/16" OSB.

Medium to heavy-duty protection

SAFEGUARD PLUS: 2" (CLASS-A)

- 1-1/4" thick neoprene compound foam core, laminated to 7/16" OSB.

- Meets ASTM E 84-05 for Class "A" rated fire-resistant wall padding in accordance with the National Fire Protection Association (NFPA) 255.

Maximum protection

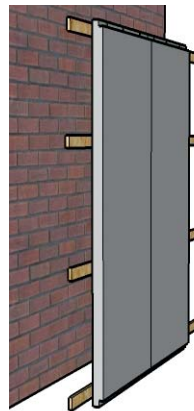

Safeguard Plus will not burn!

CONVENTIONAL PANELS:

- Recommended for installation on brick, studded drywall or ceramic block walls.
- 2-ft. wide panels with 1" attachment lip at the top and bottom to facilitate installation.
(Furring strips are recommended for installation. Furring strips to be supplied by the customer or installer.)

Conventional installation

SLOT-BACK PANELS:

- Recommended for installation on cement block walls.
- 2-ft. wide panels with two keyhole slots cutout on the back of each panel makes installation quick and easy by sliding each panel onto the wall-mount fasteners. (Resilite's exclusive hidden wall-mount fasteners are included)
- No trim molding or furring strips are required.

Slot-Back installation

NOTE: Always follow recommended installation procedures when installing wall padding. Wall Padding should always be installed no more than 4" from the floor surface.

WALL PADDING

Logos, Lettering and Artwork

Why not make your wainscot panels unique by incorporating lettering, logo or team mascot onto a few of your panels. Select from nine (9) screen printing ink colors to make your graphic stand out. Our team of graphic professionals will provide you with a FREE full color layout of your project - allowing you to visualize your wall padding graphics before anything is produced.

4-ft wide panels can be incorporated into your layout for placement of graphics and larger lettering.

Vinyl Fabric Color Selection

Select your school colors for wainscot panels from the chart shown below. Resilite's Wainscot Panels come standard in 14-oz. leather-embossed vinyl fabric which provides excellent puncture and tear resistance. Resilite's fabric is compounded with antibacterial and antifungal agents and cleans easily with mild soap and water. Dual-Purpose Floor / Wall Mats come standard in our 18-oz. vinyl fabric.

NOTE: *Safeguard Plus Wainscot Panels are available in 14 oz. vinyl fabric only. 18-oz vinyl is available on Wainscot Panels and Custom Padding for a small additional cost.*

14 oz. Vinyl Colors: (Fire Retardant)
