## I'm Galaxy Brain Design!

Well, I'm Bridget: the artist behind + owner of GBD. That's me on the left... and down at the bottom.

I've been making art when I was just a babe in snapbacks + I've been doing it professionally since 2018. Five! Years! Later! Galaxy Brain Design is selling out in retail locations, crushing it at in-person events, + doing booming business online.

My art is often about queerness, mental health, and — idk — what it means to be a good person in a broken society?

I explore those ideas through best-selling products lines like:

- Shy Guys — featuring cryptids (pgs 10 + 11),
- Fruit Juice — colorful fruit/vulva mash-ups (pg 15),
- and Pastel Progressive — bumper stickers (pg 17).

*I'm so grateful to you for taking a look at our stuff + supporting a queer-, woman-owned small business.*

I can't wait to share my art, gifts, + home goods with your customers that love a wikipedia deep dive, boozy brunch, or therapeutic breakthrough!

♡ Bridget
