

# HSF MAGNETIC SCRAP LIFTER

## INTRODUCTION

The HSF Magnetic Scrap Lifter offers safe, hands-free metal handling with a switchable magnet, 40" reach, and 90° pivot head. Built from durable steel and aluminium, it easily lifts up to 30 lbs, making scrap collection safer and more efficient for workshops, industrial sites, and DIY use.

## APPLICATION

- Collect and lift metal scrap safely and quickly.
- Handle bolts, nuts, and ferrous debris without bending.
- Use in workshops, construction, or maintenance zones.
- Perfect for industrial cleanup and recycling tasks.

## FEATURES

- Switch on/off magnet for controlled lifting.
- Extended 40" reach reduces strain and bending.
- Lifts up to 30 lbs of metal parts securely.
- 90° pivoting head for angled and tight areas.
- Durable steel & aluminium body for long life.
- Lightweight and ergonomic for easy operation.
- Boosts safety and efficiency on every job.
