

## 2016 Price List

### **ProxTalker**

The ProxTalker is the most advanced and adaptable recorded speech communication device available! It uniquely uses RFID (Radio Frequency Identification) technology to enable independent verbal communication, for non-speaking people of all ages. This technology allows you to simply place any photo, symbol or object on a sound tag and have a voice.

### **The ProxTalker Package Includes:**

**\$2995 LPT-1A**

ProxTalker  
80 Pre-recorded Sound Tags  
Backpack or Binder (Your choice)  
100 Blank Sound Tags  
2 Sets of Programming Tags  
4 Color Pages with Velcro Strips  
Peel and Stick Labels  
Label Laminate Sticker Sheets  
3 Year Warranty

### **ProxTalker Plus – Tangibles**

This package comes with the Logan ProxTalker and the American Printing House for the Blind's Tactile Connection Kit. This package will help you create a tactile card system that is individualized for visually impaired and blind learners who have additional disabilities and/or lack a formal means of communication or literacy. The tactile symbols are created when part of an object is mounted on a hand-sized card representing core vocabulary categories (i.e. people, places, actions, objects, etc.). You then attach a recordable sound tag to the tactile card for voice output.

### **The ProxTalker Plus – Tangibles Package Includes**

**\$3999 LPT-1AT**

ProxTalker  
80 Pre-recorded Sound Tags  
Backpack or Binder (Your choice)  
100 Blank Sound Tags  
2 Sets of Programming Tags  
4 Color Pages with Velcro Strips  
Peel and Stick Labels  
Label Laminate Sticker Sheets  
American Printing House Tactile Connection Kit  
American Printing House All in One Board  
100 Large Tags  
3 Year Warranty

### **ProxPAD**

The ProxPAD is a single location communication and learning aid for persons with physical, visual, or cognitive impairments and require tangible objects or other site cues to initiate communication. The ProxPAD uses RFID (radio frequency identification) and gives a voice output and responds to touch or proximity frequency. The Touch mode requires your hand or sound tag to make contact with the blue surface of the ProxPAD while the Proximity mode allows you to swipe the sound card above the surface making it perfect for the person who has limited mobility or needs the ProxPAD mounted under a table or wheelchair tray.

### **The ProxPAD Package includes:**

**\$1249 LPP1-S**

ProxPAD  
50 Large Blank Tags  
Programming Tag Set  
Power Adapter  
Peel and Stick Label Sheets  
Label Laminate Sticker Sheets  
2 Year Warranty

### **ProxPAD Plus TOC**

This package comes with the Logan ProxPAD and a pre-made 50 piece set of Tangible Object Cards sized 5"x7" that include a corresponding removable sound tag. This package is perfect for the visually impaired or blind or persons who have additional disabilities and/or lack a formal means of communication or literacy.

### **The ProxPAD Plus TOC includes:**

**\$2245 LPP1-A1**

ProxPAD  
70 Large Blank Tags
