4/12/23 - Frenchy, whose vagina area extremely inflamed for 3 month. She suffers from recurring yeast infections, the medicines her vet is giving her aren't working, I was hoping your product would!

Nexderma recommended - **Silvet spray** 1st and follow up with Nexderma **Stem Gel** 2x per day.

4/23/23 – “The Silvet Spray and Stem Gel have changed our lives!!!”

Harper_monroe

catfixernycatrescue Are you ready for another miracle rescued cat?

I'm in shock this time of how fast his skin it's starting to heal after applying Stem Gel @nexderma 3 X daily for the last few days! 🐾

Zorbium is still a little congested, has little appetite but slowly improving with the meds the Vet prescribed, lots of TLC and kisses.

The typical "Baby Lindo" care I give to all my rescues and foster kids. 🐾

Results like his brings so much joy to my life.

This is why I do whatever to help the injured cats/dogs.

With patience, love, knowledge and the right tools/meds, they'll recover.

Right now he will continue his meds and being syringe fed to make sure he gets the nutrition he needs.

I'm looking forward to his complete recovery and the day he'll go to a forever loving home.

Please check out Zorbium's Amazon Wishlist from the Linktree link on my front page. Please donate an item or two if you can.

Severe over grooming inner thigh**

STEM GEL applied

Cat also received Depo Medrol and Convenia injections

Silvet Toothpaste

Kim Buckman | Office Manager | 4S Equine | Rome, Texas

“Initial injury July 25th. He laid down to roll and rolled all the way over and stuck his foot in the bottom line of slick wire in his paddock. I did not put Stem Gel on it the first time I bandaged it. July 28th was the second pic when the proud flesh was growing and I took the first bandage off and decided to put the Stem Gel on. July 31st was the 3rd bandage change and just 3 days after I put Stem Gel on for the first time. The regression of proud flesh was pretty remarkable”. July 2020

Stem Gel!

*One of
the hardest
areas to heal!*

PIC•COLLAGE

Hoping Stem Gel is the miracle it usually is!

My son is entered in his first youth rodeo tonight. We went for a lesson yesterday with his coach, Clint Cooper. I was helping him boot up his horse and found a abscess on his RH coronary band. Ugh! Took him home, soaked it in Epsom Salt and warm water, scrubbed it, clipped the hair back, used Silvet Spray, Stem Gel, Magna Paste & wrapped it. I will be pulling the wrap off in a few hours hoping he's better! 🙌🙌

Kim

Shot Of Patron, Stallion

This was Tuesday before I applied Stem Gel, Silvet and Magna Paste with hoof bandage

nexderma

It worked. I waited as long as possible to pull the hoof bandage off on Wednesday and he was sound and we were able to haul to the rodeo.
