Model: 104-3056  
DC: 071524

## Mounting Instructions

The Hanging Holes on the back of the clock are vertically separated by 14.75 inches. We recommend using a screw or a nail in each to attach it to your mounting surface securely.

## Mounting Tips

Mount the thermometer in a protected, well-shaded area for accurate temperature measurement. Keeping it out of direct weather elements, such as sunlight, rain, snow, etc, will help prevent inaccurate readings.

## Optional Calibration

- The thermometer is pre-calibrated and ready to use.
- Allow the thermometer to sit for at least 2 hours in the same location before making adjustments.
- To manually calibrate, gently rotate the center knob located on the back of the thermometer until the desired setting is reached.
