hygge

(hyoo · guh)

by NURRE CAXTON

hygge

(hyoo · guh)

The Danish word "hygge" refers to a lifestyle defined by warmth, comfort and everyday pleasures. Nurre Caxton translates that emotion into a moulding collection that brings simple yet distinctive elegance to any décor.

hygge

(hyoo · guh)

by NURRE CAXTON

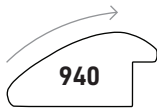

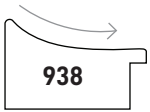

Inspired by Scandinavian design, the **Hygge collection** features clean lines and a beautiful neutral palette that is at home in every decor.

Crafted by European artisans, the **Hygge collection** delivers the highest level of quality and consistency.

Select from three profiles, including:

The **938** and **939**, both feature a classic yet contemporary and elegant sloping face

The **940** profile features a unique and modern rounded shape.

Five sophisticated finishes

Hygge's medium wood grain offers a soft satiny touch and provides the perfect foundation. Choose from:

Carbon – a deep and intense black with a contemporary matte finish.

Natural – a fresh blond color that reveals the sleek linear wood grain.

Dove Grey – a soft and elegant, modern interpretation of weathered wood.

Walnut – a natural, neutral finish with an updated mid-tone brown.

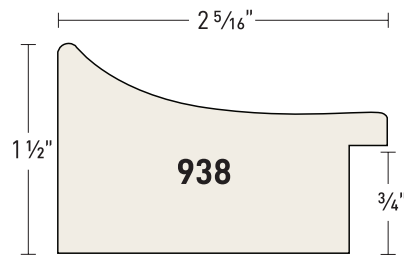

Driftwood – a graceful light grey with an open woodgrain and silky finish.

Samples are available through your Nurre Caxton distributor.
