HYBRID BACK ENTRY

MODERATELY CONTAMINATED WATER DIVING DRYSUIT

North American Made
Designed & Made in
Canada with US materials

The HYBRID Back Entry (BE) Drysuit combines the technologies of the ENVIRO and HAZMAT Drysuits. The lightweight mobility of the ENVIRO material encompasses the upper portion of the suit. The HAZMAT's outstanding material durability covers the lower portion of the suit from the waist seam down. This combination allows for greater upper body mobility while giving superior protection in lower extremities where the suit takes the most abuse.
