K9 University is primarily an educational institution focusing on dog training needs from the most basic needs to the very advanced and specialized training. We are the training resource experts seek and consult when dealing with problem dogs, complex behavioral issues, and dogs that simply have bad habits.

The founder of K9 University is an established trainer certified by the American Dog Trainers Association, the National Dog Trainers Association, and the Association of Pet Dog Trainers, who has been training dogs and their owners since 1985. Also listed as an approved American Kennel Club (AKC) Dog Training Club some of this training covers general obedience, agility, personal protection, police dogs, search and rescue, tracking, drug dogs, cadaver search, Canine Good Citizen® training, therapy dogs, special needs, and many other facets of dog training, which makes us very good at reading dogs, and dealing with problem or behavioral situations.

Over the years, we have developed modern patented training techniques that help us teach you how to communicate with your dog reliably. Understanding that the domestic dog's primary duty is to please its' master, it is then crucial that we establish a clear line of communication between the two of you. Once you learn how to communicate, there are typically no limits to what you may be able to do together.
