X Large	12.5+	47+	-	-

Completely free of seams, these patented socks are recommended for people with sensitivities, Diabetes, Arthritis, or any condition where protection from irritation is important.

SmartKnit® Seamless Diabetic Socks patented knitting process uses high-stretch, core-spun yarns that "HUG" your feet to help reduce risks from wrinkling and chafing.

These socks have no heel pocket so as the foot gets bigger, the sock just gets slightly shorter over time. So, for the ankle length buy one size smaller, for the knee length buy two sizes larger. These Socks are not intended for use as AFO/KAFO socks.
