# Set up a Homework Station at Home

Schools are closed around the world and students are required to do their school work at home. It can be challenging to keep your child's focus at home. Help keep them on pace by creating a great work space.

Here is everything you will need!

- Find the right location — Choose somewhere with out much traffic from other family members and a comfortable spot with a lot of light.
- Stock the Homework Station with all the supplies they will need. Depending on the age and grade of your child, their needs may be different. We suggest checking with their educators, but here's a few ideas to start:
  - Pencils
  - Pens
  - Highlighters
  - Markers and Crayons
  - Glue
  - Scissors
  - Wall calendar
  - Desk Lamp
  - Calculator
  - Books
  - Notebook
  - Binder
  - Computer or Tablet, if needed
  - Anything their teacher or school may require

## Time Timer

Use a Time Timer to help regulate your children's school work schedule. This can create independence and confidence as they adjust to this new school routine and environment.
