

**Designed & Handmade in Canada!**  
**Super Luxury Wool Kilim Products!**

Our products are handcrafted under SONNATI license. Beware of duplicity and fake products.

## Our Creative Lead Designer

**My name is Mina.**

I realized from an early age that I have a great deal of interest in art and design. Therefore, I chose graphic design as my professional field, which I am still working in today.

Along with the design and implementation of ideas, I have become interested in traditional drawings. Given that the Persian rugs have unique global characteristics, I have started to design my own kilim patterns. I also make traditional and local designs in the form of variety of products, such as bags and shoes.

The word **SONNATI** means traditional with respect to cultural heritage. SONNATI stands for bringing traditions to real life and making them a part of the present.

# About SONNATI

- ✓ We are SONNATI, a company based in Toronto that specializes in hand-made wool kilim products. We believe in the beauty of natural, ethically sourced materials providing the highest quality custom-designed items. Our range of certified handicraft Bohemian Style products includes luxury and unique bags, shoes, decorative items and more.
- ✓ SONNATI is currently the only company in North America that specializes in wool kilim products and has also acquired a partnership agreement with **Best Buy Canada & Walmart Canada.**
- ✓ Our products are trendy, high quality, fresh, and manufactured under fair trade principles. All of our products are handcrafted and made in small batches to provide customers with exclusive products that they can call their own.
- ✓ **Currently, we are working with art museum gift shops in Washington, Portland and many more gift shops in Canada and USA.**

# What Is A Kilim?

The symbols, patterns and colors that make up a kilim rug are not purely decorative. Each symbol represents something and tells us something about the life of the person who designed and created the rug.

Wool Kilim

# Kilim Weaving

Did you know that kilim rugs have been produced since ancient times?

Starting from the simplest forms, kilim initially was used in basic variations for utility needs and was further developed into the most elaborate artifact of prestige and decorative beauty.
