

LED SIGN LIGHT

Waterproof Dual Head Emergency Light

This UL-listed emergency light ensures safe operation and complies with United States fire inspection and International Fire Code. A 3.6V 2000mAh rechargeable battery is built into the light and can power the emergency light for over 90mins of continuous lighting after a power failure.

Protective shield & EVA foam enables the light work properly in wet locations.

Better water resistance

Technical information

Certification:	UL
Wattage:	4W
Voltage:	AC 120V/277V
Material:	ABS
Luminous Flux:	200lm
Battery Capacity:	3.6V 2000mAh
Waterproof Rating:	Wet location
Beam Angle:	120°
Warranty:	2 years
