Indoor Flood Protection

- Absorb, contain & divert problem water
- Contains a super absorbent that swells & gels on contact with water solutions

Prevent Slip & Fall Accidents

Water Dams

- Use to wrap, contain & divert problem water
- Lays flat & compact, grows 2.5in high in minutes
- 4ft & 10ft lengths
- Absorbs 1.85gal/4ft

10x

Size increase when exposed to water

Mats & Drip Mats

- Absorb fluids on contact & convert liquid to a gel

Mats:

- Better than paper towels
- Absorb 1.5 quarts from both sides
- 6.75in x 16.5in
- Available in 10 & 200 packs

Drip Mats:

- Catch leaks & drips; plastic backing keeps floor dry
- 2ft x 2ft
- Hold over 1 quart each
- Available in 10 & 100 packs

Indoor Flood Protection Kits & Accessories

Leak Kit & Buckets

- Contain a variety of Water Dams, Mats & Drip Mats
- Variety of indoor flood protection buckets available

Wall Mounted Dispenser

- Quick access to wall mounted dispenser
- Place Wall Rack Dispenser in problem areas for quick access
- Stock with Quick Dam water-activated Mats & Dams
- Quickly contain and control leaks, spills & floods
- Ideal for janitor closets

Indoor Flood Protection

Insta-Dam

- Quickly block entryways from damaging water
- Reusable, flexible dam controls & diverts fluid
- 2in x 2in square shape seals to surfaces
- 4ft length provides continuous protection
- Chemical & temperature resistant

Includes Hi-Vis Storage Container

Mighty Mat Absorbents

Floor Pads

- Highly absorbent cellulose absorbs & retains fluids
- Barrier backing prevents fluid seepage
- Speeds floor cleaning projects
- Absorbs water, chemicals, oil, fuel, body fluids & more
- Heavy/Light Duty Pads are 32in x 78in; Blue Light Duty is 28in x 78in
- Available in a variety of sizes and pack outs
- Absorbs oil, gas, antifreeze, water, grease, alcohol, paint & more
- Durable & low linting
- Use to catch leaks & drips
- Mats are 16in x 18in
- Rolls are 32in x 150ft
- Available as pads & rolls in various quantities

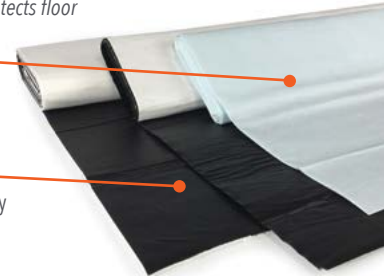

Leak proof backing protects floor

Lightweight:

For light volume drips, splashes, spills & leaks

Heavyweight:

For superior absorbency & cushioning for work comfort

Outdoor Flood Control

- Absorb, contain & divert water
- Ready to use, no assembly required
- Water-activated
- Grow to 3.5in high in minutes
- Ongoing protection, lasts for months

Flood Bags

- Standard: 1ft x 2ft, Jumbo: 1ft x 4ft
- Each Flood Bag absorbs 4gal; Each Jumbo Bag absorbs 8gal
- Available in a variety of pack outs

Flood Barriers Patented

- Available in 5, 10 & 17ft lengths
- Absorbs 4gal every 5ft
- Attached wedge prevents rolling out of position
- Available in a variety of pack outs

Please Note: Bags & Barriers Not for Use with Saltwater

Flood Control Kits

Outdoor Flood Control Kits

Carry strap for "hands free" carrying for easy deployment

- Hi-vis, orange bucket contains Quick Dam Flood Bags, Barriers, or a combination of both
- Duffel Bag is packed with a variety of Quick Dam Flood Bags & Barriers, shoulder strap keeps hands free
- Easy to store, deploy & use

Emergency Pump Kits

- Everything needed to quickly pump out & control water flow
- Keep on hand for emergencies
- Includes high quality puddle pump, 50ft hose, hi-vis orange durable crate, indoor & outdoor flood control

Hi-Vis Water Barriers Patented

- Absorb, control & block problem water
- Hi-Vis Neon **Orange** or **Green** outer mesh help prevent trip & falls & adds durability for extended use
- Super absorbent gels contaminated slurry
- Absorbs over 50x volume
- Use to comply with TCLP paint filter test for safe transport & disposal
- Lays flat for compact storage & then activates on site when wet
- Grows to full size of 3.5in high in minutes
- Absorbs over 8 gal & then acts as a barrier
- Leave in place for ongoing protection
- Comply with EPA regulations to prevent silica dust from entering waterways

**Available
in Hi-Vis
Buckets
for Fast
Response**

Temporary Drain Seals

- Stop silica contaminated water from going down drains
- Reusable 20 mil heavy duty polyurethane mat
- Use with Barriers to weigh down perimeter

Liquid Lock™- Slurry

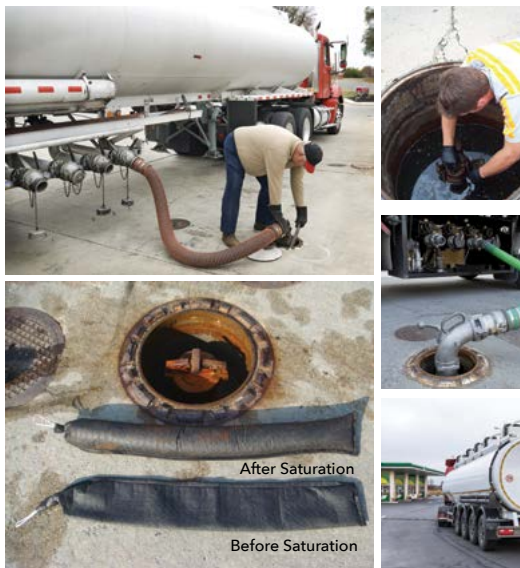

- Super absorbent gels fluids
- Absorbs over 50x volume
- Use to comply with TCLP paint filter test for safe transport & disposal

Roll Off Dams

- Stop leaking contaminated fluids from escaping truck beds
- Absorb, gel & contain liquids & prevent seepage
- Compact & flat until activated
- 5in x 8ft - Available 10/pack

Spill Bucket Socks

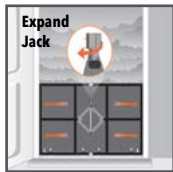

- Quickly removes water & melted ice collecting in spill buckets/containment wells
- Prevent contaminated fuel by removing water before it becomes a problem
- Prevent costly pump outs & disposals
- Prevents rescheduling & delays of fuel deliveries
- Absorbs & removes .8 gal of water in under 5 minutes
- Lower into well with attached loop, absorb water & remove
- Does not absorb fuel
- Flat, compact & lightweight for easy storage

Water Curb

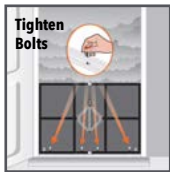

- Contains, controls & diverts water
- Use contained water to block problem water
- Fill and drain with water as needed
- Compact, lightweight & reusable
- Store empty & fill on site as needed
- Dual chambers prevent rolling out of position
- Durable & chemical resistant 10mil Polyurethane
- Flood protection from 6.5in-10in high
- Available in 5ft, 10ft & 20ft lengths

Flood Gate

Jack expands and seals sides

Bolt seals bottom

Creates 26in height of Flood Protection

- Quickly seal off entryways in minutes
- Fits openings 25in to 52in
- Expandable steel frame wrapped in neoprene for a water tight seal
- Protection up to 26in high with step over public access
- Increase width with use of stanchions
- KiteMark flood tested & approved

Front of Gate

Back of Gate

Accessories:

Stanchions

- Join multiple units together to create wider protection lengths
- Available as 2-way and 3-way stanchions

Rails

- Rails provide a smooth surface fit for uneven or unstable surfaces

Storage & Deployment Cart

- Store & transport up to 6 Flood Gates & 4 Stanchions with ease
- Set up Flood Gates in multiple areas faster
- Sold as add-on or full system

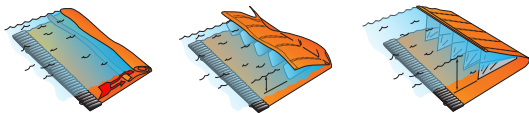

Water Force

- Portable water dam deploys with minimal time & labor
- Rises with the flow of oncoming water
- Available from 6in to 5ft high
- Connectible units of 30ft or 50ft lengths
- Ideal as portable coffer dam
- Reusable system for years of protection

FM Approved Models:
Sizes of 39in high

Water Force unfolds & rises with the flow of oncoming water

Quickly rolls out, turns corners, is flexible & follows landscaping.
Connect multiple units together for unlimited length.

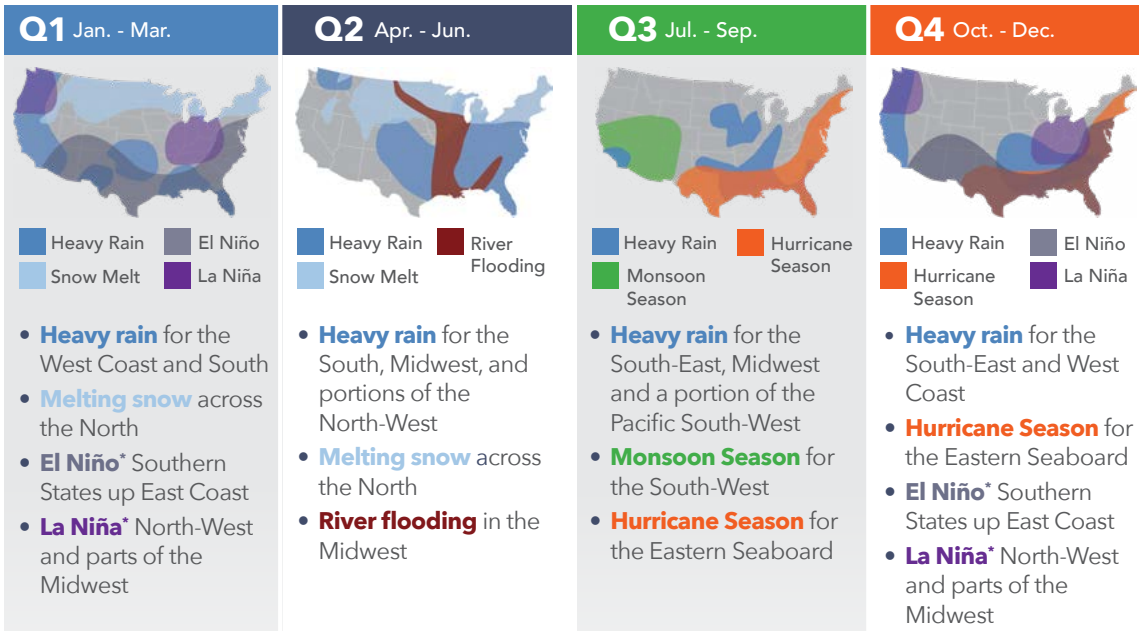

Storage & Deployment Crates

- Custom designed to fit specific needs

Seasonal Weather Trends

*During years where El Niño or La Niña is present, these areas tend to have a higher flood potential
