

POLARIS RAZOR

WINDSHIELD

**DO NOT REMOVE
PROTECTIVE PAPER FROM
WINDSHIELD THIS WILL BE
YOUR LAST INSTALLATION
STEP!**

Part	Qty	Description
	4	12" Straps
	2	10" Straps

STEP 1

Set Windshield on Roll Cage.

STEP 2

Peel back paper enough to expose the slots cut in the windshield.

STEP 3

Insert Strap with the fuzzy side of the Velcro facing toward the opposite roll bar. Wrap Strap around the roll bar and pull the end of the strap through the plastic clip. Pull tight and attach the Rough Velcro to the Fuzzy.

STEP 4

Repeat step 3 for each remaining strap.

STEP 5

Peel off protective paper from both sides of the windshield.

Installation complete!

Cleaning Instructions.

Lexan, which is a brand of polycarbonate, is virtually indestructible. But it is also easily scratched. Please read the cleaning recommendations to limit damage to your product.

Never wipe your polycarb back panel with any just any old cloth. We recommend using micro fleece blanket. This is super soft material you can find at Walmart. Any other cloth even micro fiber will leave scratches on the polycarbonate. If you are unsure about the fabric please give us a call at 859-488-7447 ask for Sam.

Never use any abrasive cleaning products on your polycarb. Windex for example is not ok! This will cause the polycarb to develop a haze. Some chemicals may eat through the polycarb. I do not recommend using any kind of soap but if you must please use dish soap only, like dawn. Pour on and spray off, do not wipe!

Do not try to wipe off mud period! Spray mud and debris off with water hose first! If you have access to a leaf blower or air compressor we recommend using them to dry the windshield. If not, gently use a micro fleece blanket to blot the water away and then air dry.

I recommend using a product called MuddTraxx Ceramic Detailer, to apply a coat of wax that will prevent mud and dust from clinging to your windshield. If you are having trouble finding this product online please call Sam at the number listed above.
