Attention and Care Instructions

Safety Precautions

Read Before Assembly: Carefully read all instructions before beginning assembly. Failure to follow the instructions may result in damage to the furniture or injury.

Proper Tools: Ensure you have the proper tools required for assembly. Using incorrect tools can damage the hardware or the wood.

Children and Pets: Keep small parts away from children and pets during assembly to avoid choking hazards.

Work Area: Assemble the furniture on a clean, flat surface to avoid scratches and ensure stability.

Assembly Tips

Do Not Overtighten: When using screws, do not overtighten them. Over-tightening can strip the screw holes or crack the wood.

Pre-Drilled Holes: Use the pre-drilled holes for screws and other hardware. Do not force screws into the wood as this can cause splitting.

Check Parts: Verify all parts are present before starting the assembly. If any parts are missing or damaged, contact customer service.

Step-by-Step: Follow the steps in order as presented in the manual. Skipping steps or assembling parts incorrectly can lead to unstable furniture.

Wood Care

Temperature and Humidity: Solid pine wood can expand and contract with changes in temperature and humidity. Avoid placing the furniture in extremely dry or humid environments.

Sunlight: Prolonged exposure to direct sunlight can cause the wood to fade or crack. Place the furniture away from direct sunlight when possible.

Cleaning: Dust regularly with a soft, dry cloth. For deeper cleaning, use a damp cloth with water. Dry with a clean cloth.

Spills: Wipe up spills immediately to prevent stains and water damage. Avoid using harsh chemicals or abrasive cleaners.

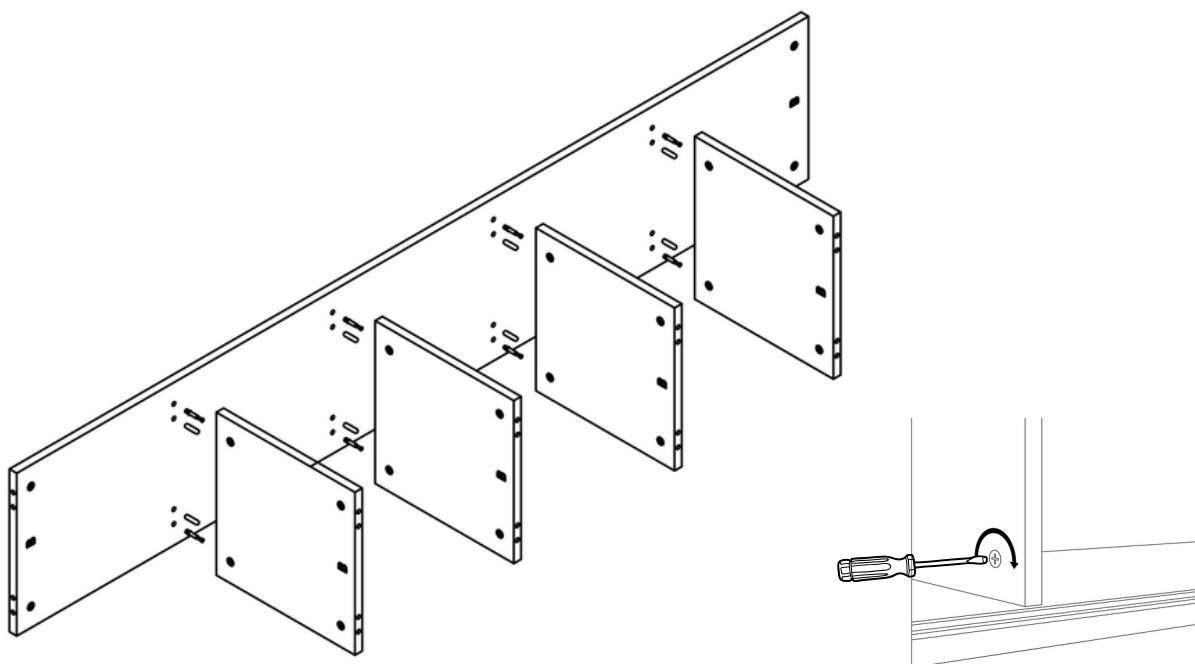

Protection: Use coasters, placemats, and tablecloths to protect the surface from hot items, spills, and scratches.

Maintenance

Tighten Periodically: Periodically check and tighten all screws and bolts to ensure the furniture remains stable and secure.

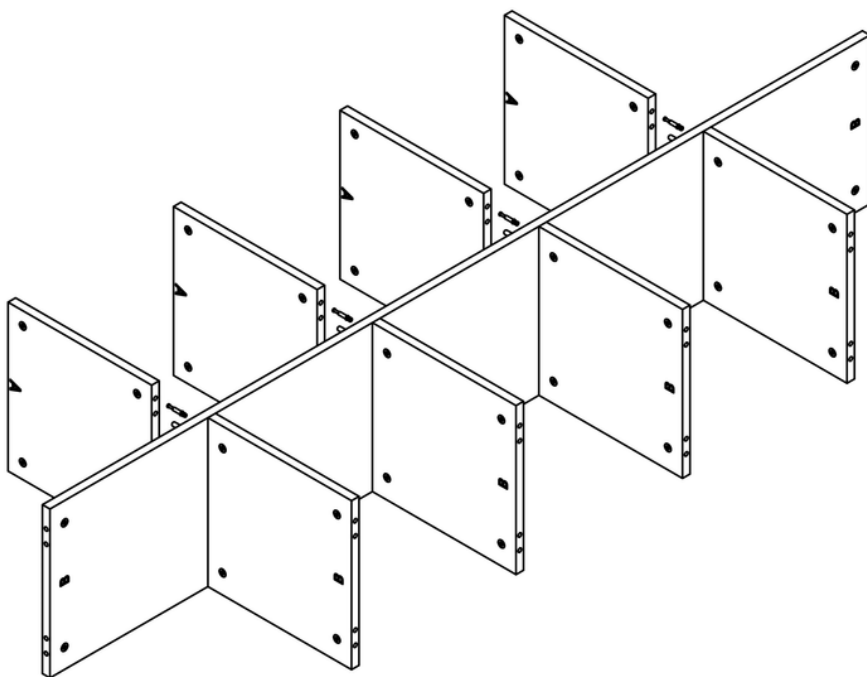

Avoid Heavy Loads: Do not place excessive weight on the furniture, as this can cause it to warp or break.
