SUPPORTING CUSTOMERS  
BY CREATING VALUE ADDED SEALING PRODUCTS & SOLUTIONS

### OIL SEAL PRODUCTS FOR AUTOMOTIVE ACTUATOR

NAK is committed to working with customers to provide the highest quality with great product performance. We design the seals that are suited to meet the customer requirements and enhance the performance and brand value of customers' products. NAK customers have access to our exclusive technical services. NAK has developed seals for many OEM customers from all over the world and also becomes their long-term partners owing to its ability to provide true and long-lasting solutions.

#### AGS / AWD ACTUATOR SEAL

#### Ozone-Resistant Materials

The seals have been designed and developed to withstand ozone exposure

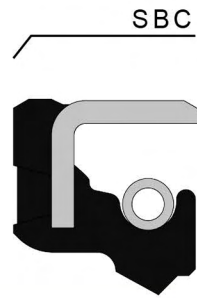

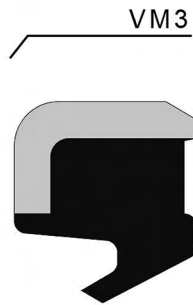

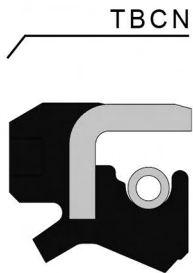

#### Design for Automatic Assembly

Each seal passes air leakage test and could be used in automatic assembly line

# AUTOMOTIVE ACTUATOR SEALS

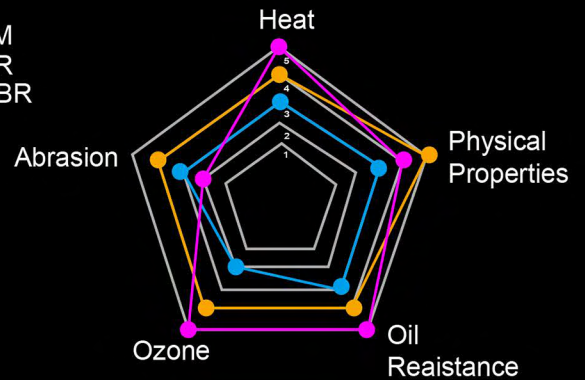

## TURBOCHARGER ACTUATOR SEAL

## MATERIAL

- Automotive actuator seals mainly use NBR, HNBR or FKM.
- NAK provides customized requirements and demands according to various application.

- FKM
- NBR
- HNBR

## RELIABILITY

To ensure that most accurate test data is captured, our software, hardware and test equipment in the lab were fully upgraded in 2019. NAK's engineers have undergone rigorous professional training and they conduct the tests in accordance with international test specifications as well as customized test conditions specified by the customer.
