

Product Information

NAK Washing Machine Seals

ISO-9001/14001
ISO/TS-16949
OHSAS-18001

Washing Machine Seals are important components for washing machine mechanism. They are used to prevent water or detergent liquid leaking from wash bath and retain grease in mechanism side. NAK provides various types of seals to suit for top loading or front loading washing machines.

World Class Brand World Class Manufacturing

Through years, NAK has been in partnership with international manufacturers of washing machines and also acquired approvals of various seals for both top loading and front loading washing machines.

The basic types of NAK washing machine seals are shown as below. Other custom designs are available. Please contact with us for more information.
