Induction ready pot/pan base

AFPI-10H

Hybrid technology bonds a stainless steel plate to aluminum cookware, as effective in utilizing induction technology as full stainless steel cookware.

- ◆ Deep drawn 3003 Aluminum body is durable and highly conductive, better than stainless steel cookware for quickly and evenly distributing heat
- ◆ Stainless steel bonded plate allows for magnetic contact with induction cooktops
- ◆ Thicker handles and heavier rivets than standard cookware allow for secure comfort in transporting cookware
- ◆ Can also be safely used with gas or electric ranges
