

Product Safety Recall

Dear Mattel Australia Customer:

Mattel Pty Ltd. has announced a product recall of the Thomas & Friends Wooden Railway Troublesome Truck & Crates and Troublesome Truck & Paint.

The small plastic piece containing a high-powered magnet that connects one train to another can detach or become loose. There is a risk of young children choking on the connector that contains a magnet if it detaches. There is also a risk of serious internal injuries or death if a child swallows more than one small high-powered magnet as they can stick together across the walls of the child's intestine or other digestive tissue.

The product numbers are:

Thomas & Friends Wooden Railway Troublesome Truck & Crates (HBJ89) and

Thomas & Friends Wooden Railway Troublesome Truck & Paint (HBJ90)

The product number is located on the bottom of the train car.

Because our records indicate that you own one or more Thomas & Friends Wooden Railway Troublesome Truck & Crates and/or Troublesome Truck & Paint, we are contacting you directly.

Consumers should immediately stop using the product and contact Mattel Consumer Relations by email at infoaust@mattel.com or by phone at +1300 135 312. You also can contact us at www.service.mattel.com.

We appreciate your attention to this recall and thank you for your continued support.
