## What is Verdyol Biotic Earth™?

An all natural - highly effective mulch and growth medium, made of organic matter, straw, flax fibers & peat moss, that helps plants grow & prevents soil erosion.

By providing nutrients & support, **Verdyol Biotic Earth™** reintroduces organic matter, beneficial bacteria and Mycorrhizal fungi to depleted soils while increasing moisture retention; accelerating the soil building process and nutrient cycling, essential to the soil building process.

**Verdyol Biotic Earth™** is faster, better and more cost effective than top soil and comparable products, **all while being 100% natural**, helping us take care of the bee's and our planet at the same time!

## Choose ECBV over the Other Guys!

"I have been using Biotic Earth in all the projects I've worked on in the past year and I've got to admit that I'm impressed! Its ability to improve soil structure, retain moisture, and enhance nutrient uptake is unmatched. I've seen firsthand how it transforms depleted soil into a fertile and thriving foundation for green spaces.

What sets Biotic Earth apart from other soil amendments is its ease of use and versatility. Whether I'm working on a large-scale project or a small one, Biotic Earth is straightforward to apply due to its fixed application rate and it delivers consistent performance every time. In the long-run, it saves me time, money and effort."

**Ashton Sharpe, SoilEx Hydroseed & Earthworks**
