CHARGING THE HEADSET

NOTE: It is highly recommended that you fully charge the headset overnight (3-4 hours) before first-time use, or if headset has not been used for more than 21 days.

- Plug the USBC end of the charging cable (included) into the charging port of the headset.
- Plug the Type A end of the charging cable into a computer or laptop's USB port, or a USB Type A charging block (not included).
- · Do not use the headset while charging.

TROUBLESHOOTING

- Ensure that the Bluetooth function on your PC/laptop, phone, or other device is enabled.
- Ensure that MI is shown as paired, and is the primary connection in your device's Bluetooth settings.
- If your device has a Sound or Audio Settings, ensure that the default audio input / output on their is set to the MI headset.
- Ensure the range between the headset and the paired device is less than 30 feet, and that there are no disturbances or electrical devices between the headset and the paired device.
- Check if the indicator light signals low battery and recharge as needed. If LED does not work at all then the battery may be exhausted. Plug headset in to charge and wait several minutes for red LED to come on to indicate device is charging.

• Disable your pop-up blocker. If using a browser-based service like Google Meet or Slack browser app, pop-up blockers can prevent the browser's microphone permission request from displaying.

PAIRING TO ONE DEVICE WITHOUT DONGLE

NOTE: Before first time use charge your headset for at least 3 hours

- While headset is off, press and hold the MFB to power on. Headset will automatically enter into pairing mode.
- If headset does not automatically enter pairing mode, turn it off and plug it in to enter charging state. Wait a few seconds, unplug from charging cable, then press-and-hold the MFB button to turn headset back on and continue to hold the MFB button after headset is on until the LED flashes Blue/Red.
- Navigate to your device's Bluetooth Settings menu to search for nearby Bluetooth accessories.
- Find "MI" and click it to initiate pairing.
- Wait up to 30s and your device will show that the headset is paired. NOTE: If asked for a pin, enter "0000".

PAIRING TO TWO DEVICES WITHOUT DONGLE

NOTE: This headset contains a dual-link function for connecting with two Bluetooth enabled devices simultaneously.

- Pair the first device following one of the steps above.
- Temporarily turn off the first connected device's Bluetooth.
- · Pair the second device using one of the steps above.
- Turn on the first device's BlueTooth.

PAIRING WITH USB DONGLE

NOTE: Before first time use charge your headset for at least 1.5 hours

- While headset is off, plug the USB dongle into your PC/laptop.
- Press and hold the MFB to power on. Headset will automatically enter into pairing mode.
 - If headset does not automatically enter pairing mode, turn it off and plug it in to enter charging state. Wait a few seconds, unplug from charging cable, then press-and-hold the MFB button to turn headset back on and continue to hold the MFB button after headset is on until the LED flashes Blue/Red.
- $\bullet \;$ Wait up to 30s and headset will automatically pair with dongle.

WIRED HEADPHONES MODE

Connect the 3.5mm aux cable (included) to the headset, and connect the other end to your audio device.

NOTE: Bluetooth turns off automatically when 3.5mm cable is connected. Battery is turned off, and headset buttons and microphone will not work when headset is in AUX mode.
