DUAL CONNECTIVITY

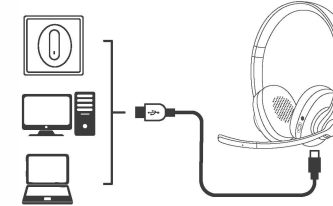

When you use the USB-C charging cable (included) to connect the headset with your PC/laptop you can use the headset as a wired headset even when battery is empty.

SAFETY INSTRUCTION

- Do not place headset near naked flames such as candles, or near high heat sources such as oven.
- Press function buttons gently. Hard presses may shorten lifetime of product.
- Do not drop on hard surface.
- Keep away from appliances that generate strong magnetic fields to avoid signal disruptions. If headset is affected by signal disruption, turn off and back on to reset.

CHARGING

Please charge the DELTON60X when you see the red LED flash. Charging time is about 2 hours. The solid red LED will turn off when the headset is fully charged.

Use the included USB-C cable and connect it to either a USB outlet/adaptor or to a computer. Plug the Type-C end of the cable into the headset.

PRODUCT DESCRIPTION

PAIRING TO ONE DEVICE

- Press and hold "Power/Mute" for 4 seconds to power on the headset. If needed, Double click "Power/Mute" button to force headset into pairing mode.
- In your phone's or your PC's BT pairing screen, click HST-280 to connect to the headset.

PAIRING TO TWO DEVICES

- Follow PAIRING TO ONE DEVICE instructions with first phone or PC then turn off BT function of first phone or PC. The headset will enter pairing mode automatically. If it does not, then double click "Power/Mute" button to force headset into pairing mode.
- Turn on the BT function of second phone or PC and click HST-280 to connect to the headset.
- Turn on BT function of first phone or PC, and click to reconnect HST-280. Headset is connected with two devices now.

PAIRING WITH THE DONGLE

- Plug the USB Dongle into PC/Laptop. LED Indicator on the Dongle will flash. If indicator does not flash, press-and-hold button on Dongle to force it into pairing mode.
- Press "Power/Mute" button for 4 seconds to turn headset on. If needed, Double click "Power/Mute" button to force headset into pairing mode.
- Headset and Dongle will auto-pair. Your PC will show "BTD-Q1" as the connected device.
