Product Specifications:	Style No.	Power cables	Applications/Cable type
17.5 — 16mm — 70mm	CP2	1-2 Power Cables	• Extruded rubber design • Ideal for offices, boardrooms and computer rooms • Available cut to length, minimum order 2 metres.
17mm 10mm 20mm 70mm	CP2/Y	1-2 Power Cables	• Tough PVC design in yellow • Ideal for offices, boardrooms and computer rooms • Available cut to length, minimum order 2 metres.
19mm 32mm x 13mm 19mm 98mm	CP2BY	4-5 Power Cables	• Economy extruded rubber design • Ribbed surface and yellow stripe down either side • Two useable channels • Ideal for temporary and permanent applications
19mm 20mm 90mm	CP3	3-4 Power Cables	• Extruded rubber design • Ideal for offices, boardrooms and computer rooms • Available cut to length, minimum order 2 metres.
23mm 17.5mm 26mm 120mm	CP4	4-5 Power Cables and/or Hoses	• Extruded rubber design • Ideal for offices, warehouses and factories • Comfortably protects power cables, 3 phase cables, compressed airlines and water hoses • Available cut to length, minimum order 2 metres.
20mm 30mm 150mm	CP5	4-8 Power Cables and/or Hoses	• Extruded rubber design • Ideal for warehouse, factory and external applications • Comfortably fits two 3-phase power cables or two compressed airlines • Available cut to length, minimum order 2 metres.
40mm 12mm 20mm 130mm	CP14	4-5 Power Cables	• Flexible PVC dropover cable protector - ribbed profile • Available in yellow or black, 1 metre inter-locking lengths • Heavier product for good grip • Ideal for office and pedestrian applications
40mm 13mm 20mm 135mm	CP12	4-5 Power Cables	• Polyurethane dropover cable protector • Anti-slip checker tread plate surface • Ideal for office and pedestrian applications • Available in Yellow or Black, 1 metre inter-locking lengths, minimum order 2 lengths.
105mm 27mm 35mm 275mm	CP13	8-10 Power Cables	• Polyurethane dropover cable protector • Anti-slip checker tread plate surface • Ideal for office and pedestrian applications • Available in Yellow or Black, 1 metre inter-locking lengths, minimum order 2 lengths.
35mm 35mm 50mm 300mm	CP DROP2	10 Power Cables and/or Hoses	• Two Channel Heavy Duty Dropover cable protector • Ideal for warehouse and industrial applications • Simply dropover top of cables • Available in 1 metre inter-locking lengths
16mm 6.4mm 11mm 63mm	CPS/SM	2 Power Cables	• Aailable per metre or a discounted 9 metre roll • Standard flexible extruded rubber design • Ribbed surface with two useable channels
19mm 9.5mm 16mm 76mm	CPS/MD	3 Power Cables	• Aailable per metre or a discounted 9 metre roll • Standard flexible extruded rubber design • Ribbed surface with two useable channels • Ideal for permanent applications
Industrial grade nylon fabric Velcrose securing system 60mm 105mm	SAF/1.8	3 Power Cables	• Available in 1.8 metre or 9 metre lengths in various colours. • Secures cables to looped carpet • Quality Industrial grade nylon fabric • Can be cut to any length without unravelling.
Nylon fabric Velcrose securing system 55mm 97mm	Quick Fit™	3 Power Cables	• Economy fabric cable covers in 1.0 metre lengths in Black, Yellow or Light Grey • Easy to set and remove to carpet without damage to carpet • Ideal for temporary or permanent applications
Channel Height 10mm 22mm 19m 60mm	CPDuct	2 Power Cables	• Comes in 1.9 metre lengths. • Supplied with double sided tape on the base • Suitable for indoor use • Remove the top cover, lay your cables in the channel and click the cover back into place.

Product Specifications:	Style No.	Power	Applications/Cable type
19mm, 9.5mm, 19mm, 76mm	CPSIDESM	1-2 Power Cables	• Available in yellow/black or black 1 metre inter-locking lengths • Sections clip together to create desired length • Flexible design allows cable protector to go around corner • 14 tonne loading capacity per axle.
35mm, 19mm, 76mm, 248mm	CPSIDEMD	18 Power Cables and/or Hoses	• Available in 840mm lengths which include end caps (Without the end caps the length is 750mm) • Colours are black/yellow or black • Sections clip together to create desired length • Flexible design allows cable protector to go around corner • 6 tonne loading capacity per axle.
54mm, 38mm, 76mm, 346mm	CPSIDELG	38 Power Cables and/or Hoses	• Available in black/yellow 860mm lengths which include end caps (Without the end caps the length is 750mm) • Sections clip together to create desired length • Flexible design allows cable protector to go around corner • 6 tonne loading capacity per axle.
15mm (W) x 10mm (H), 15mm, 80mm	PYTHON /SM	2 Power Cables	• Flexible, yellow and black cable cover • 900mm length can be customised to suit your application • Can be bent to approx. 2 metre circumference circle • Round grips on underside that prevent slipping
27mm (W) x 20mm (H), 30mm, 150mm	PYTHON /LG	4 Power Cables	• Flexible, durable yellow and black cable cover • 900mm length can be customised to suit your application • Can be bent to approx. 2 metre circumference circle • Round grips on underside that prevent slipping
50x55(w) mm, 65mm, 320mm	CP1CH	Multiple Power Cables and Hoses	• Suitable for indoor and outdoor use • Ideal for temporary and permanent applications • Suitable for high volume pedestrian traffic, light to medium weight vehicle applications • Available in 1 metre inter-locking lengths.
30mm, 30mm, Channel Height 35mm, 45mm, 245mm	CP2CH	Multiple Power Cables and Hoses	• Suitable for indoor and outdoor use • Ideal for temporary and permanent applications • Suitable for high volume pedestrian traffic, light to medium weight vehicle applications • Available in 900mm inter-locking lengths.
Channel Width 60mm, Channel Height 55mm, 75mm, 500mm	CP3CH	Multiple Power Cables and Hoses	• Large channels to suit a variety of cable and hose sizes • Suitable for indoor and outdoor use • Ideal for temporary and permanent applications • Suitable for low to medium volume, light to medium weight vehicle applications • Available in 900mm metre inter-locking lengths.
Channel Width 38mm, Channel Height 30mm, 55mm, 500mm	CP5CH	Multiple Power Cables and Hoses	• Modular rubber design with plastic lid • Large channels to suit a variety of cable and hose sizes • Suitable for low to medium volume, light to medium weight vehicle applications • Available in 900mm metre inter-locking lengths.
300mm, 22mm, 50mm, 35mm, 35mm	ESH300	8-10 Power cables and Hoses	• Speed hump style cable protector, reduces vehicle speed in low traffic environments and offers a cable protection • Two channels to protect cables and hoses • Available in 1.83 metre lengths, fast and easy to install.
95mm, 70mm, 85mm, 850mm	CR850	Multiple Hoses and Cables	• 850mm long in direction of travel and 300mm wide per module. Pack of 4 modules will total 1.2 metres wide • Weight rating = 10 tonne per axle • Provide safe passage for pedestrians and vehicles • 2 large channels to suit a variety of cable and hose sizes
Channel Height 130mm, 150mm, 150mm, 135mm, 1010mm	CR1010	Multiple Hoses and Cables	• 1010mm long in direction of travel and 300mm wide per module. Pack of 4 modules will total 1.2 metres wide • Weight rating = 20 tonne per axle • Provide safe passage for pedestrians and vehicles • 2 large channels to suit a variety of cable and hose sizes
