Kashmiri Shilajit

Shilajit is a natural substance found mainly in the Himalayas, formed for centuries by the gradual decomposition of certain plants by the action of microorganisms. It is a potent and very safe dietary supplement, restoring the energetic balance and potentially able to prevent several diseases.

Shilajit contains fulvic acid and more than 84 minerals, so it offers numerous health benefits. It can function as an antioxidant to improve your body's immunity and memory, an anti-inflammatory, an energy booster, and a diuretic to remove excess fluid from your body.

Kashmiri Khawa Tea

Kashmiri Kahwa is naturally rich in vitamin B12 reserves, thanks to the high quantity of saffron that helps the body reenergize and kickstart its defense system. It is full of antioxidants. These keep the body free from ailments and infections, especially during the winter season.

Kahwa is very good for your skin and your hair. It provides a natural glow to your skin and makes your hair look healthy. It is an energy booster. The ingredients in Kahwa give your body a sudden boost of energy and also increase your metabolism rate.

Kashmiri Garlic-Lasun

Kashmiri garlic, also known in Inc... as Himalayan or Jammu garlic, is a rare, single-Clove Variety of *Allium sativum*. Known as Snow Mountain garlic and Ek Pothi Lahsun in Hindi, it is only harvested once a year from the high altitudes of the Himalayas and is well-known throughout India for its health benefits. Research has shown Kashmiri garlic to be seven times more potent than commercial garlic, in terms of beneficial compounds and properties.

Mountaineers Climbing in the Himalayan mountains of northern India during ancient times consumed Kashmiri garlic to help maintain blood circulation, increase oxygen capacity and raise energy levels. The single-Clove variety is renowned in Ayurvedic practices and is prescribed for people suffering from diabetes, heart disease, high blood pressure, and the common cold.
