For example: if you select 2h, the light will automatically turn off after 2 hours, and 2h will automatically turn on (24 hour cycle, under the condition of uninterrupted electricity power).

◆Warm Tips

※Better to work 6 hours then cool it down with 30 minutes, it will save the lifetime of lighting source.

※Laser is Class 2, the power of each laser point is not more than 1mW, no harmful to human body and eyes.

※This product is mainly used for outdoor with waterproof IP65. It has excellent radiating ease put it far way from the flammable objects or liquids.

※Please use our own power adaptor to support the light. If you need to change a new adaptor please check the parameter of our adaptor and buy a new One. If you need more longer power cable, please use legal cable with enough diameter and control the length or it will give more higher load to the adapter.

※When connecting the cable to the plug adapter, please make sure the 2 pin plug is the right way round, the "Flat" and "Keyway" need to match or there will be no contact.
