

Rare Aviation Cockpit Organizer Template

4.25"

182
MODEL

WILL IT FIT MY AIRCRAFT?

Use this Cockpit Organizer template to help you confirm the suitable Cockpit Organizer model for your airplane.

Follow the instructions to print out the templates:

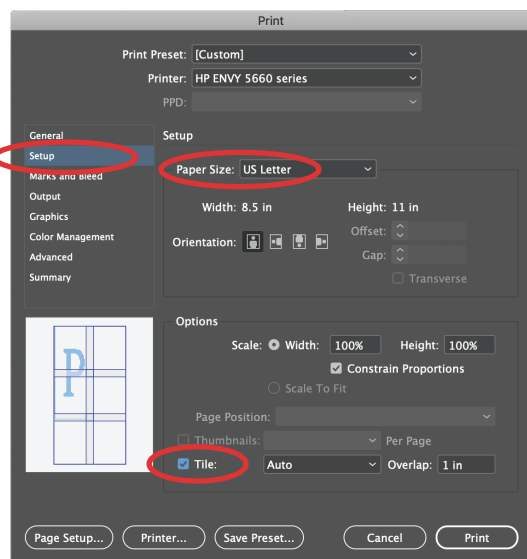

If you don't have legal-size paper, simply use the TILE option in your printer's set up, and print two letter-size sheets of paper. (See sample to right.)

Tape them together to create the template to scale.

Cut out the template where indicated. (Option: transfer your paper template to a piece of cardboard.)

Place the cut-out template on the floor of the plane between your seats,

This will allow you to confirm you have suitable clearance. (The seat cushions may touch the sides of the Cockpit Organizer.)
